KATE MacDONALD

Kate,

This pen and my handwriting suck,
so hang in there. Or don't. I don't care. It's your
yearbook, do whatever you want, and I'll probably
be going on like this for a few minutes. I can't
write on the bus so I'll just skip to the polite
please-tries. Have a great aestas and I'll see ya next
year. Vale!

Mike.

Kate,
Have a great summer,
and remember our lunch
table and all the good times
we've had. See you on
4th of July.

Anthony

Hi Kate,
I won't be seeing
you next year. But
if you ever want
to look me up, it was
nice knowing you.

Stay with theatre, because
you're really good, and get
more into music. Good luck
in all you do because you
deserve it. Enjoy life!
People as they are. Remember me!
I'll come back to visit &
see the plays. Love Ori.

and remember:
It's not leaving that hurts,
It's knowing I may never see
you again.

Hey Kate -
Have an
awesome summer
and senior year!
Good luck!

New Directions within School and Community

Builders are breaking ground around every corner in Vernon Township and new building means more people. A community already overloaded with demands on its tax dollar and the services provided is now looking at a new bank, a new church (below), a new elementary school, more than one hundred fifty new home sites, and an addition to its high school (right).

Right: Mr. William Donald's three English classes meet on stage until the new construction is completed. Far right: Seniors Barbara Gomm, Dawn Sindle, and Janice Suhre are waiting for the 7:40 a.m. bell to ring on September 5, 1985, for the first day of the new school year.

Quite a surprise to most students of V.T.H.S. was the appearance of a new vice principal. No, Mr. Whidden did not leave, but he did begin a partnership with Ms. Joan Skelly, the school's first female administrator. Ms. Skelly finds the high school to be a change from Glen Meadow Middle School where she previously was vice principal for two years.

Ms. Skelly finds the students at the high school easier to work with--both more reasonable and more mature. She likes the variety of classes and finds the extra-curricular program to be excellent. Ms. Skelly only regrets the school population is so large that she is not able to meet all the students personally.

When Ms. Skelly began working as the second vice principal, she took half of Mr. Whidden's responsibilities. As for discipline, Ms. Skelly and Mr. Whidden divided the students alphabetically.

Before becoming an administrator, Ms. Skelly had been a teacher for six years. She has a bachelors and a masters degree; she is currently working towards her doctorate at New York University. Ms. Skelly is single, lives alone, and enjoys her free life style.

NEW DIRECTIONS in Expertise

Special training sometimes involving expensive equipment is required to develop natural talent and interest. Some Vernon students have been willing to give up their hard earned savings, muscle power, sweat, and precious time to be the best at what they do.

Right: Dave Armstrong jumps twelve feet into the air above the waters of Feldman's Pond on Glenwood Mountain Road. He said, "Look Ma, no hands!" Below: Dave demonstrates for Mr. Parrella and Mr. Whidden one of his many tricks. Below right and across: "United Breakers"--including Robert Stesney, Ken Cooney, Alex Rivier, Fred Adames, and Ray Pepe--dance regularly at Hayloft on Friday nights. "Hacky", played with a small leather beanbag by Sean Mullins and Ed McLaughlin, is popular at frisbee tournaments and Vernon's lunch. Senior scholars Doreen Pressimone and Marianne Papay maintain "A" averages and are tied for first in the senior class. Joe Lenartowicz plays an acoustic guitar and writes his own rock music.

Senior Geoff Stewart raced the motorcross track in Walden, New York, and placed fifth in the 125 cc class. Congratulations, Geoff!

Junior Jon Bonney became interested in camouflage through his grandfather, a World War II vet, and in history class.

Junior Lisa Parak is a Junior Olympic champion in the discus, placing first in New Jersey and fifth in the Nationals held in the state of Iowa.

Daring to be different

Reflecting your mood or mirroring your personality, today's fashions are different and attention getting. As you walk through the caverns of Vernon High, it's hard to miss the flowered prints or palm trees.

Jean jackets are increasingly popular as well. The new fad in portable time tellers are the originally designed Swatches.

Garments and watches aren't the only wild things in fashion. For the more daring, there are the step haircuts.

Fashions let people express their individuality even in a somewhat restricted atmosphere.

We're proud to be vikings

Excitement was intense when Monday morning of Spirit Week arrived. Hallways were disguised by colorful streamers and posters, just waiting for students to arrive in their psyched-up moods and freaky costumes.

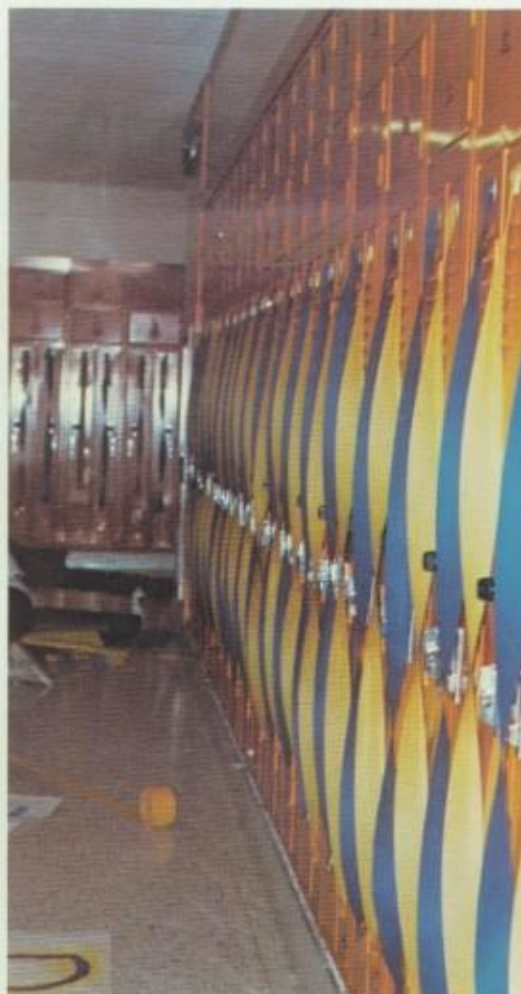

"What do you wanna be?" asked Student Council. The response was everything from a mother to a doctor and even Mr. Rogers. Students dressed in blue and gold on Monday, in punk style on Tuesday, as their fantasy on Thursday, and in their class color on Friday.

As Spirit Week progressed to its traditional conclusion at the Friday afternoon pep rally, the tension grew. Classes were judged and the sophomores found victorious in the yell off and participation, the juniors in banners, hallways, and overall. Everyone had the chance to show that their class was best--but most of all, everyone cheered on the school itself

Warm welcome greets alumni

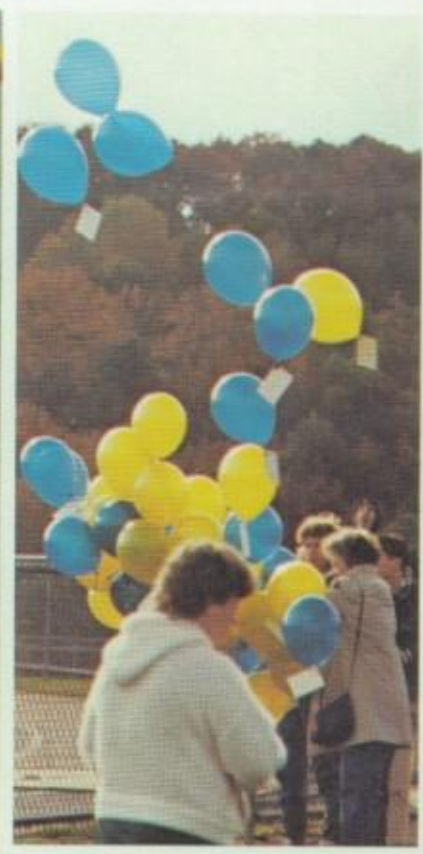

A ten year old tradition at Vernon is the annual Homecoming at which the alumni of the last graduating class are welcomed back. With pouring rain on Saturday, October 5, the football game was rescheduled for Sunday. Despite the wet weather, the alumni breakfast was held on Saturday. Members of the class of 1985 were able to mingle and find out what everyone was doing in their new world.

The half time show by the Viking Band units was spiced up with the added attraction of finding out that Carol Lembo was to be the 1985-86 Homecoming Queen.

For the finishing touches, the gridiron squad presented all its fans with a victory over the Kittatinny Cougars.

Right: Homecoming Queen Carol Lembo. Below: Carol with her escort, Todd Crisci. Bottom: Class of 1986 nominated Renee Boeren, Debbie Phillips, Karen Woodruff and Lorraine Balinski. The entire student body voted for its choice.

The Great Balloon Race

One hundred seventy blue and gold balloons gracefully floated away to their unknown destinies. The individuals who purchased them for one dollar each were hoping to collect the hundred dollar prize for the balloon that traveled the farthest from Vernon.

Mrs. Clancy, class advisor, and Janice Woods, activity chairperson, were pleased with their first attempt at such a project even though it wasn't very profitable.

Finally, A Senior

A few years ago, the thoughts of becoming a senior sounded so fantastic and so far away. Well, those years quickly flew by and now we are seniors. What exactly does being a senior mean? It means growing up, making more friends, enjoying your last year of high school, and receiving senior privileges.

Some of those privileges include driving to school, getting our own restrooms to share with fellow seniors, a senior pass, and a private section in the lunch room called the cage. Also before classes start, the seniors gather together in the cafeteria for homeroom, to talk with friends, and indulge in coffee and doughnuts. The privileges may not be numerous but we earned them. So for now, we live with the ones we have and try to make our last year of high school totally awesome!

Right: Seniors Ron Schneider, Cheryl Predmore, Floyd Romyns, and Bob Kirby arrive in the cafeteria for the first day of senior homeroom.

Junior Danny Newman grubs a ride from seniors Henry Dewitt, Scott McKee, and Roger Roberio. The coveted permit is granted only after you've obtained your parent's signature, paid your dollar fee, and become a full-fledged senior.

Seniors take on responsibilities

Anklebiters! In other words, freshmen. Sometimes seniors forget what it felt like to be one. That's why senior advisors were created. Under the direction of Mr. Michael Cannavale these seniors are able to meet at least once a month with the freshmen. Each senior is assigned approximately five freshmen to advise. They help the frosh cope with the changes from eighth to ninth grade. They help them to "fit in," tell them what's here for them, and of course the do's and don't's of high school.

On June 2 and 3, 1985, the selected juniors, now seniors, attended the Fairview Lakes YMCA Camp in Stillwater, New Jersey to learn more about the tasks ahead of them. They attended eight sessions over the two day period taught by present advisors and VTHS faculty which included Mr. Cannavale, Mr. William Gerbracht, Mrs. Beverly Stoskus, and Ms. Nora Szalavitz. The sessions dealt with communication and leadership skills. Past experiences were shared and successful ways of coping were developed. Along with the sessions there was one and one half hours of free time in which the students and faculty could swim, play football, tennis, or basketball, or go boating. There was also a movie, *Ordinary People*, a campfire, and student entertainment.

Everyone likes to eat, especially at their favorite fast food joints, but not everybody is as excited about losing those extra calories afterwards. A good diet is very important as taught in Home Economics and Health classes. The trend is for more fresh fruit and vegetables in our diets and far less in the way of animal fat. Medical scientists tell us that we have to balance the calories we take in with the calories we use or we gain weight. A good way to burn calories and keep in shape is by working out. In an informal survey of Vernon students the results indicated that two out of five people exercise on a regular basis. People do aerobics, play sports, run, bike, and lift weights. All of these things can help you to get into shape so that you can start to feel good about yourself. You're worth the effort!

Weekend fun for Vernonites

What?...Where?...How?...Three beginnings to familiar questions constantly being asked by Vernon Students Monday through Friday are in reference to the plans for the coming weekend. What are we going to do? Where are we going? How are we going to get there? In Vernon, the answers are not simple because choices are limited. There are fewer things to do and fewer places to go than in an urban area and if you don't have a license or some form of transportation, you have no way to get anywhere. It's not uncommon to have a friend who lives more than a half-hour away by car.

Even with these restrictions,

Vernon students find ways to have fun on the weekends. Over a weekend, students ski at either Hidden Valley or Vernon Valley--Great Gorge, skate on the nearest lake, toboggan down the nearest hill, participate in recreational sports, and work.

Nightlife for Veronites consists of dancing at the Hayloft, going to or renting a movie, attending a school event, or going to a party. The last rates as being the most fun and so tops the list of things to do!

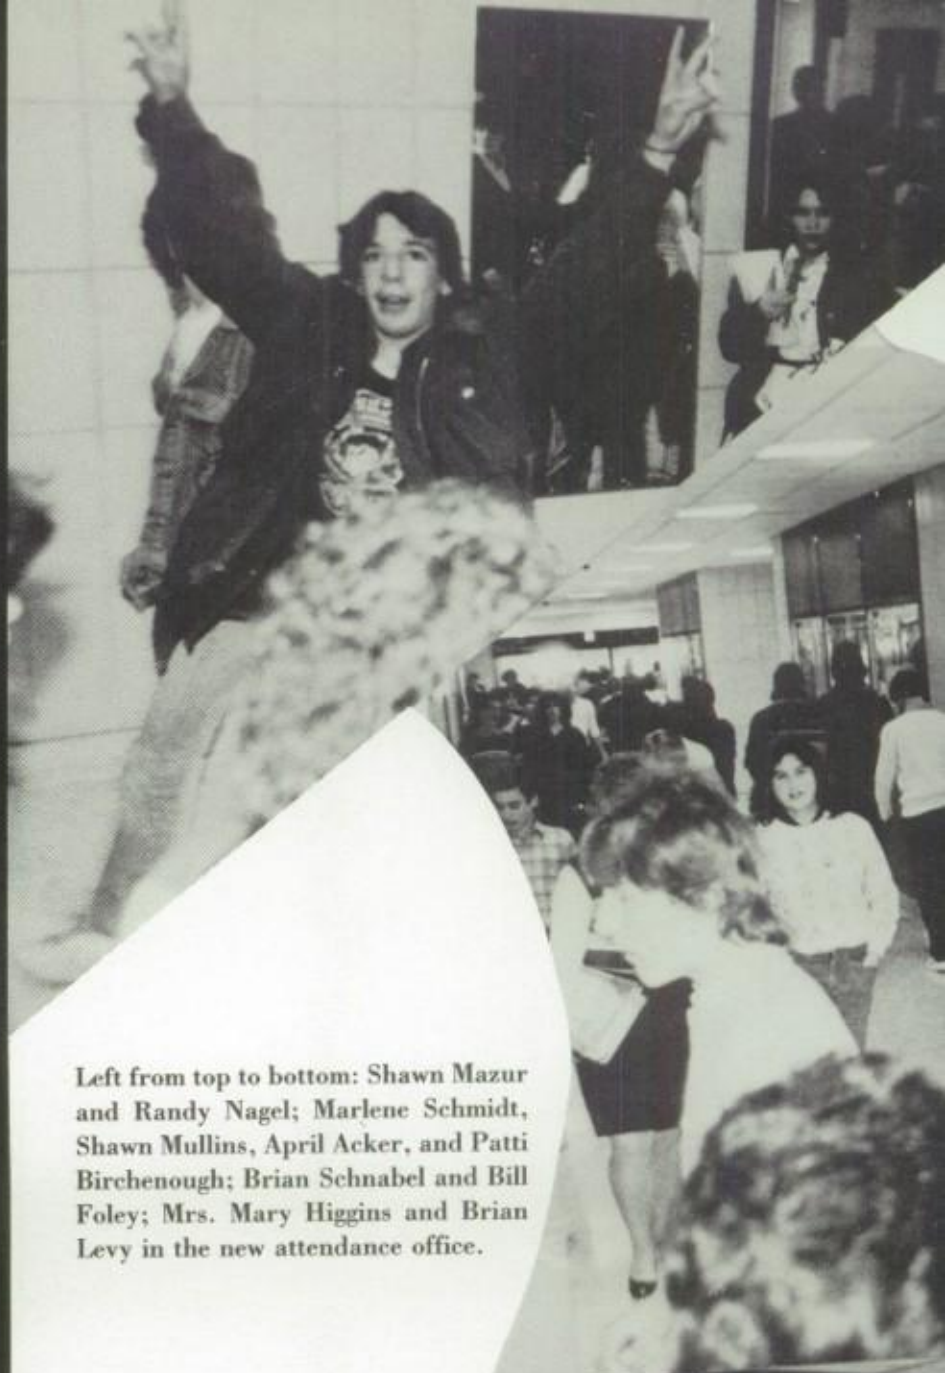

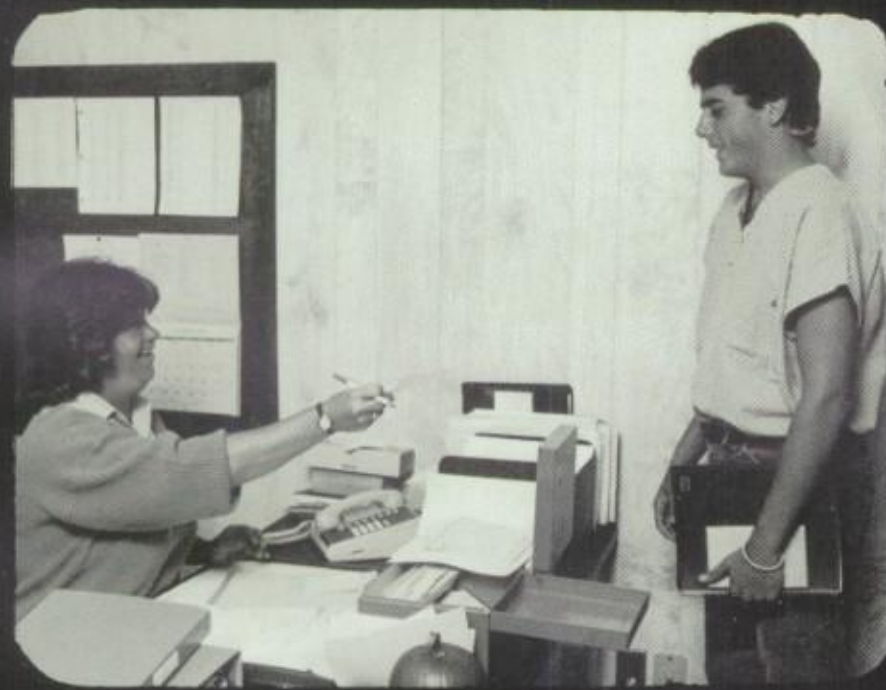

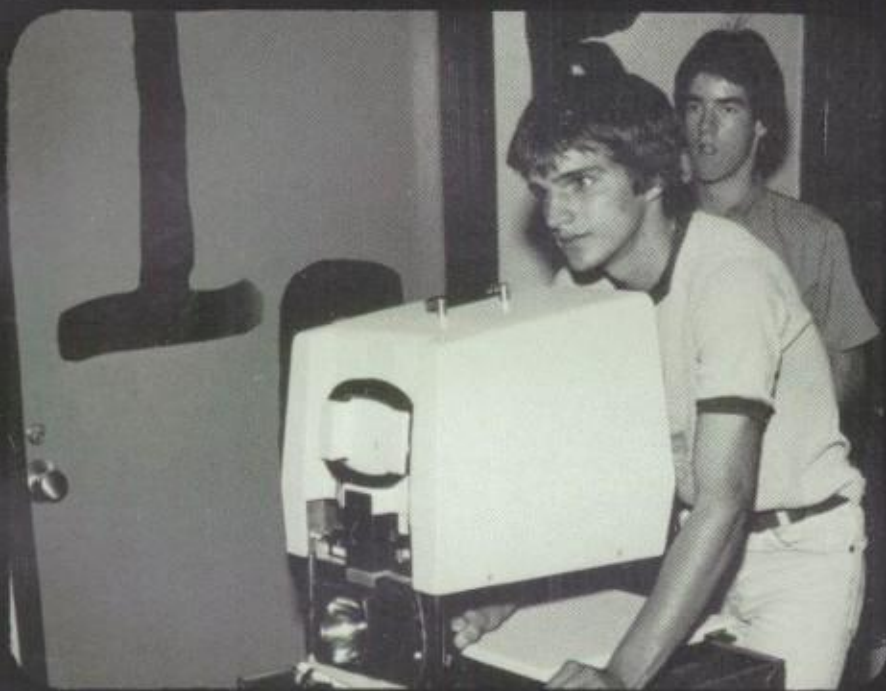

Vernon may not be a big city with flashing neon lights, but the students do make the most of it.

Right: Senior Gregg Jones hits the slopes at Hidden Valley. Below right: Senior Victor Peel catches a wave at Cape May during a Spring '85 weekend. The five minute stretch

"Hurry up! We only have five minutes!" were the cries heard in the begining of the year. But experience has taught Vernon students what they can do during that time. Most go to their lockers and then straight to class; others chat with their friends, go to the lavatories, stop at the nurse's office, and/or visit the smoking circle. All in five minutes!

Then there are the stragglers who need twenty minutes. They try to run to a class that's on the other side of the building in the last five seconds. When that loud bell rings, they try to slip into the classroom unnoticed but the teacher sends them to the attendance office to get a late pass.

There will always be just five minutes, no matter how you spend them. So...make the best of it. 5...4...3...2...1...0!!!! Oh, no!

A tradition never forgotten

Among Vernon Township High School's many traditions are its Junior and Senior Proms. By definition, a prom is a formal dance given by a high school or college class but to the people attending it's more than that. A prom is an evening of fun, excitement, and most of all an evening to enjoy and remember.

The Class of 1986's Junior Prom was held in the high school gymnasium. The theme was "Almost Paradise" and the prom song was "Heaven." To create an atmosphere of paradise the Class of 1986 constructed a walk-in three dimensional castle which served as an entrance. The Class of 1987 planned their Junior Prom around the theme "City Nights."

Space shuttle program hit by disaster

The nation was shocked when the Space Shuttle Challenger exploded in space on January 28, 1986, after a seemingly normal take off. The first thoughts were with the seven crew members: Francis Scobee, Christa McAuliffe, Judith Resnik, Ronald McNair, Michael Smith, Ellison Onizuka, and Gregory Jarvis.

Our nation wept over the great loss, our flags flying at half-staff. The most highly publicized member of the crew was Christa McAuliffe, a teacher from New Hampshire who was chosen to be the first civilian in space.

The explosion was a shock to everyone and people watched endless video re-plays of the actual event as well as the special reports and follow-up newscasts. Searches to find any piece of the space shuttle were launched to attempt to learn why the craft exploded.

Funeral services were held with the President and First Lady in attendance. The entire nation mourned the human loss. The major question asked after the initial shock went by was will the disaster prevent NASA from continuing its program. The United States reaffirmed its commitment to exploring space.

Mother Nature at her worst

Mother Nature is unpredictable and sometimes cruel. Floods in California and hurricanes in the East caused extensive damage; the Mexican earthquake and the South American volcanic eruption resulted in loss both material and human. 1985 seemed to be a year of natural disasters.

On September 19, 1985, a shattering earthquake battered Mexico City starting at 7:18 a.m. The earthquake measured 7.8 on the Richter scale. Buildings fell like toy blocks and two thousand people were believed to be dead. Another estimated five thousand were injured and thousands missing.

On November 13, 1985, the 17,716 foot volcano known as the Nevado del Ruiz erupted after a long dormant period. Twenty thousand people are dead or missing. This eruption was compared to the eruption of Mt. Vesuvius which buried the ancient cities of Pompeii and Herculaneum.

Super powers meet

On November 21 and 22 the two superpowers of the world met in the small but neutral city of Geneva, Switzerland. The 70 year old President of the United States Ronald Reagan, and the 54 year old General Secretary of the Soviet Union, Mikhail Gorbachev, did not just meet to haggle over missiles but also to discuss opposing views of the world and each other's activities. The 20 issues on the agenda ranged from maritime boundaries and nuclear weapons to cultural exchanges. The single most important topic was the United States' defence project with SDI (Star Wars) which the Soviet Union strongly opposed. The eyes of the world were on Geneva.

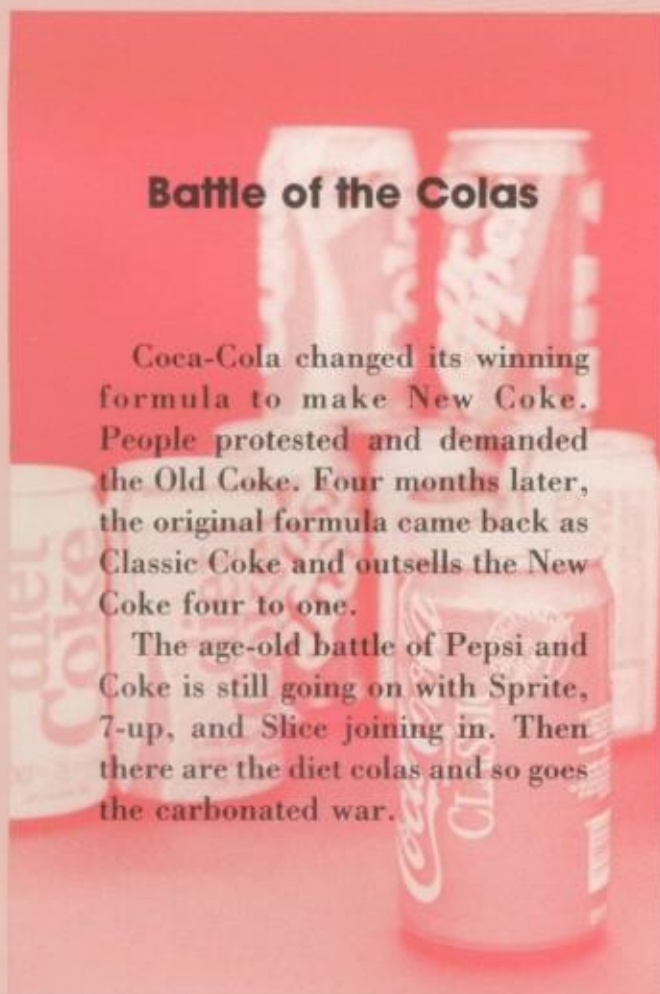

To fly or not to fly

The worst year ever recorded in aviation history was 1985. Experts pointed the finger at maintenance and mechanical failure, human error, and terrorism. Fatality rate neared one hundred percent.

In December, U.S. Army personnel of the 100 First Airborne Division died when their Arrow Air 727 crashed in Canada. The more than 300 aboard were returning to Fort Campbell, Kentucky, for Christmas.

On February 19, an Iberian 727 crashed in Spain, killing 148 people. Air India 747 was downed in the Atlantic off the coast of Ireland as rescue parties searched in vain for the 329 on board on June 23. August was the worst month with 124 killed aboard a Delta L-1011 520 aboard FAL 747, and 54 on board British Airtours 737.

Battle of the Colas

Coca-Cola changed its winning formula to make New Coke. People protested and demanded the Old Coke. Four months later, the original formula came back as Classic Coke and outsells the New Coke four to one.

The age-old battle of Pepsi and Coke is still going on with Sprite, 7-up, and Slice joining in. Then there are the diet colas and so goes the carbonated war.

Acquired Immune Deficiency Syndrome (AIDS) is a rapidly spreading disease that first came into sharp focus when Rock Hudson, a famous movie and television actor, contracted the disease and died. AIDS primarily attacks male homosexuals and drug addicts, although cases have been reported that the disease affects women and even unborn children.

The AIDS virus works by attacking the immune system and mainly the helper T cells. The virus will not let the T cell do its job, thereby breaking down the immune system. The AIDS virus can reproduce itself one thousand times faster than any other known virus.

Magazine articles, newspaper articles and television shows on AIDS have flooded the American market. Research is only in the beginning stages and AIDS is spreading quickly. Students have been banned from school and celebrities have killed themselves in fear of the AIDS virus. Is this only the beginning?

Once every 75 years

Halley's comet returned. This comet hasn't been seen since 1910 but has its own "museum" stocked with artifacts from the birth of the solar system. Halley's comet first became visible with binoculars on Nov. 1 near the constellation Orion. On Dec. 15, 1985, Halley's was visible to the naked eye near Pegasus. On April 11 the comet was closest to the earth and on May 30 faded from view for another 75 years. Most members of the Class of 1986 will be 93 when Halley's comet returns again.

Music to aid starving nation

On July 13, 1985, Live Aid, the biggest rock concert in history, raised more than fifty million dollars for the starving African nation of Ethiopia. Performances took place in London and Philadelphia and were televised world wide. Ninety thousand people attended the concert in JFK stadium and seventy two thousand in Wembley stadium. The person behind the famine relief concert was Bob Geldof, lead singer of the "Boomtown Rats." Other performers include Phil Collins, Sting, Bob Dylan, Lionel Richie, Tina Turner, and Mick Jagger.

N.J. Teacher of the Year

Vernon Township home of Fitzsimmons

Ms. Janice Fitzsimmons, teacher in the Vernon school system for fifteen years, was the recipient of the very special award, New Jersey Teacher of the Year. Ms. Fitzsimmons says that she has seen many changes in the techniques, methods, and even curriculum, but one item remains constant--the children. When working with children, she believes the key is creativity.

Ms. Fitzsimmons knows there is a great need for excellence in all aspects of education.

She is an active member of the N.J. Education Association. She is currently teaching first grade in Walnut Ridge Primary School.

In the speech she delivered at the State Teachers Convention in Atlantic City, Ms. Fitzsimmons stated "I stand here before you with my spirits raised. I receive this designation as Teacher of the Year today, not so much as an individual honor but, to a much greater degree, as a universal acknowledgement of what all teachers stand for."

Marcos regime falls

A questionable election victory over rival Corazon Aquino was the last straw as far as the Filipino people were concerned. A final tally produced by the untrusted Marcos regime declared Ferdinand Marcos President of the Philippines on February 15. The Filipino people, angered by the election results, took to the streets of Manila and began protesting. Marcos unsuccessfully sent government troops to put down the protest. High ranking government officials began to defect to the side of Aquino. Within days the Filipino army split and the Marcos regime fell from power. On February 25, President Marcos and his family fled to the island of Guam and then to Hawaii. Marcos had ruled the Philippines since 1965. Corazon Aquino became the new president of a country with awesome problems--economic, political, and social--and a \$25 billion debt.

Attacks cause world alarm

"An attack on civilization" was *Time's* description of the activities of terrorist groups in recent times. In 1985, the attacks seemed to accelerate, particularly against the U.S.

In Beirut the Shi'ite Amal militiamen took 37 American male passengers hostage and hijacked a TWA jet. In Frankfurt, Germany, a bomb was stuffed in an oversized travel bag; the ensuing explosion killed one Portuguese man and two Australian children; 42 others were injured including one American. In San Salvador, gunmen leaped out of a truck and opened fire on people who were eating their evening meal at four adjoining sidewalk cafes. Killed were four off-duty U.S. Marines, two American businessmen, five Salvadorians, a Chilean, and a Guatemalan; at least fifteen were injured. In Tokyo a bomb exploded at Narita Airport, killing two and injuring four.

And so the list continues. The terrorist attacks that received the most attention were the Iranian hostage crisis and the capture of the *Achille Lauro* cruise ship. All terrorism, horrifying in its immediate impact, also produces uncontrollable side effects.

For student athletes, the day is just beginning at 2:13 when academics are temporarily set aside and team practices begin. Athletes dedicate their time, efforts, and determination to make the Vikings stand out on the field, the track, the court, or in the pool or gym.

Athletes' aggressiveness is put into every contest. Participants exert themselves to their limits in hopes of victorious rewards. The accompanying aches and pains seem to be worth it when the Vikes come out on top.

Vernon's coaching staff and the student athletes work together to create a program that bring out the champion in each individual--to be the best that you can be.

Sports

New sport added to fall schedule

A totally new direction for the Viking sports program appeared in the form of a girls' soccer team. The lady Vikings played a twelve game junior varsity schedule and came away perfect. Coach Gary Carter of Glen Meadow School wanted his girls to experience the challenge of a varsity contest and arranged for them to meet Whippany Park's varsity team. The scores were close, although on the losing side of the ledger, and indicate a winning future for girls' soccer.

We had a dream
 It almost came true
 We have one more chance
 The wind whispers now
 We play as a team
 Move, think, act as one
 Become an **AWESOME VARSITY VIKING TEAM!**
 Bursting with pride
 Tears in our eyes
 We rise above our enemy
 The enemy--defeat
 Striking them down
 Shutting them out
 Scoring high
 Laughing loud
 Loving it all
 Living now
 We have a dream
 It will come true
 We will become
 An **AWESOME VARSITY VIKING TEAM!**

Vikes earn SCIL title

Newspapers down played Viking Soccer at the beginning of the season but the team knew better. They believed they were the best and that's exactly what they proved by season's end. Coach John Ryan knew his team would be competitive but he felt success would depend on maturity. As it turned out, the 1985 Viking booters became the best squad Vernon High ever had. The team played and worked as a unit producing a regular season record with only one loss out of nineteen games. In November, the SCIL title became a reality. The Viking Booters will be remembered as a respectable, hard working team. They will be remembered as NUMBER ONE.

Running those miles pays off

1985 was an impressive year for the Vernon Cross Country teams. With the coaching of "Mr. C" and his new assistant "Miss V" (Miss Wendy Vertucci) the boys team walked away with their fourth consecutive S.C.I.L. championship and a perfect record of 11-0. The girls finished with a winning record of 7-2.

The boys team was led by a trio of runners which took the top three places in every S.C.I.L. dual race except for one. This trio consisted of two newcomers--sophomore Rich Falcone and senior Drew Heady--and senior returnee Tim Connelly. In his first year of cross country running, Rich placed first in eight races; second and third in two other races. He then placed second in the S.C.I.L. Festival race. Behind Rich most of the season was Tim Connelly who moved ahead at the S.C.I.L. Festival to take first place. Drew Heady placed seventh in the county race. The wins, however, were a total team effort with strong back-up runners in junior Carl Schotter, junior John Grube, and sophomore Chris Boyle.

When the 1985 girls' cross country team first started practicing there were only nine runners and no freshmen on the roster. A week later freshman Laurie Weinreb joined the team and still later freshman Denise Baker signed up. The girls were led for most of the season by senior Noel Knecht who ran a new school record of 19:01 on the Viking course. Noel was followed by senior Marianne Papay, junior Janet Denbleyker, junior Karin Knecht, and freshman Laurie Weinreb.

Vikes upset Lenape

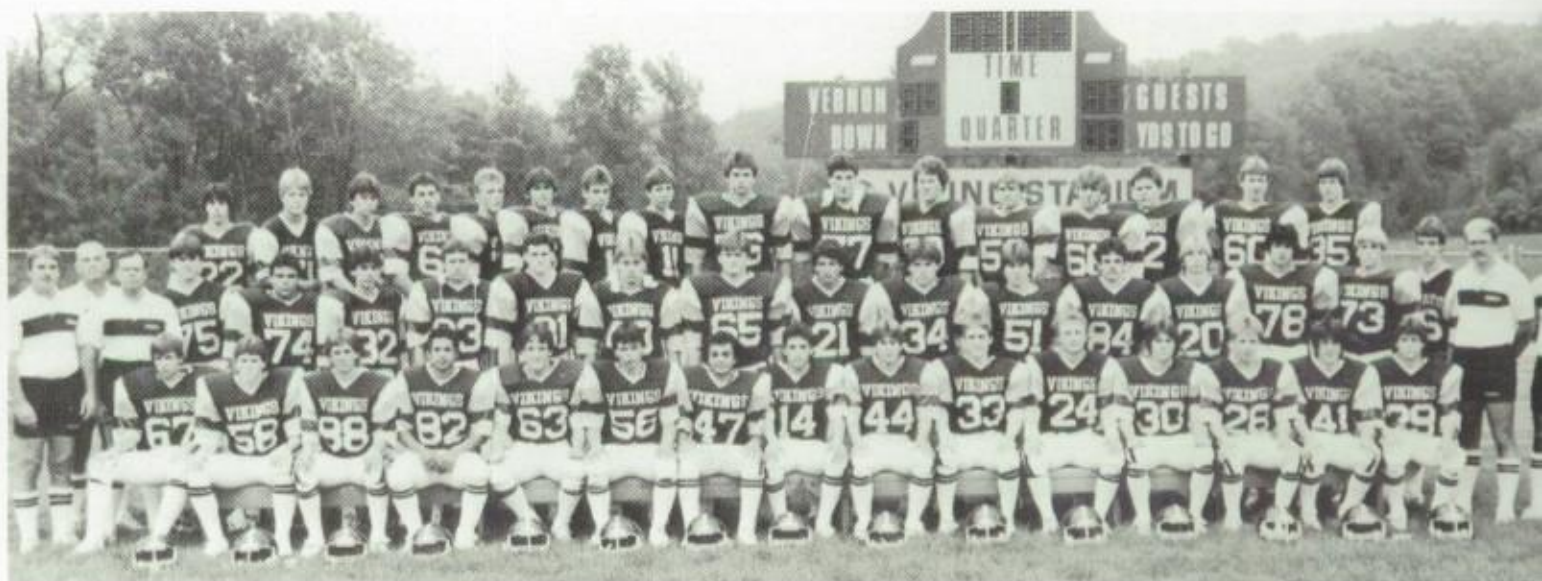

The major upset of the Viking football seson was registered against Lenape Valley on October 12 with a score of 13-7. The game was a defensive struggle with both teams recording their points in the first half. The Vikings shut down a late Lenape drive in the fourth quarter to clinch the victory.

The Vikings also had impressive wins over Kittatinny and High Point with shutouts of 17-0 and 20-0 respectively. The Viking offense was led by quarterback Al Vitkosky, receiver Bob Papay, and running backs Glen Whaley, Dave Wassmer, and Ron Schneider. The defense was led by linemen Mike Collodel and Sal Rubio, linebacker Mike Begala, and defensive backs Mike Mahoney and Pete Poulas.

85 season provides good experience

Effort, enthusiasm, and dedication helped the 1985 Vernon Girls Field Hockey Team to a 11 and 8 record which ranked them fourth in the Sussex County Interscholastic League. With only two returning seniors it was a very young team but also a promising team for next season. The 1985 season brought its share of wins and losses. The Lady Vikes struggled through four 0-1 losses. They faced only two overtime games, one leading to a shootout. The shootout came against Pope John in the second half of the season with the Vikings coming out on top with a goal by Kathleen Pasetty.

The Lady Vikings also qualified for the state playoffs, but in first round action, dropped a 0-1 decision on a penalty stroke to High Point; it was a tough, emotional, hard fought game.

Senior Renee Boeren led the offense this season with fifteen goals and one assist. Junior Patti Dzikowicz was also a great factor, finishing with seven goals and three assists. Junior goalie, Carol Ignatieff, ended her season with one hundred seventy-four saves and a .84 goals against average. She held strong in the cage for the Vikings.

Tennis reaches States again

After losing to graduation Gail Werner and Kris Roome at second and third singles respectively, the 1985 tennis team struggled to compile a 5-9 record overall and a 3-7 league record. The team tied for fourth in the SCIL with Wallkill Valley and qualified for a state playoff berth against Tenafly for the second year in a row.

Senior captain Lori Kaplan improved her record at first singles and finished the season at a 7-7 mark. She was unanimously picked to be a member of the SCIL All-league Team and made Honorable Mention All-area.

Daniella Crispo, Jill Sammack, and Tiffany Stile rotated at second and third singles while Kim Hennessey, Jen Rineer, Kim Runge, Valerie Stoeckel, and Vanessa Hargrave played first and second doubles.

Personal interests demand effort

An organized team or a rigid schedule is not necessarily a requirement for every athlete or every sport. Each, however, will require a certain amount of self-discipline relative to time and effort in order to develop the basic skills. These individualized sports may include but are not limited to such activities as hiking, scuba diving, horseback riding, ice skating, ice hockey, archery, hunting, tobogganing, karate, dancing, weight lifting, windsurfing, and motorcross.

“Sac that quarterback”

Want to be a cheerleader? The season will require endless smiling, cultivation of a deep voice, looking uniform, and being energetic all the time.

Your goal? To motivate. Yes, motivate the team to their best effort, win or lose. Motivate the crowd to cheer so the Vikings on the field know they have the moral support of their fans.

Is it worth it? You bet! Now one more time--“Sac that quarterback.”

"We've got spirit"

Are you dedicated and responsible? Enough to give up many hours to practice carefully choreographed routines and more than twenty evenings to attend basketball games?

At tryouts, cheerleaders are judged on coordination, skill, strength, stamina, and enthusiasm. As they say "we've got spirit,, yes we do; we've got spirit, how about you?"

Vernon defeats Sparta in final game of season

The last game of the season provided all the thrills that go with an upset victory. Junior Paul Schwarz tossed in a jump shot at the final buzzer to give Vernon a 55-53 win over Sparta. Sparta had tied the game at 53-53 with 7 seconds left on the clock. Bill Fitzpatrick threw the ball to Schwarz after a Vernon time out.

The final season record of 6 and 15 doesn't reflect the close calls or the hard fought struggles. Coach Edelman is proud of the over-all effort and particularly of the contributions of Dave Kilby who was named to the All-SCIL team and selected to play in the DRC/SCIL All Star Game.

Third place finish in SCIL commendable for second year

The second year for the Viking Swim Team produced a winning record with fourteen wins and four losses. Only two seniors were on the roster; they were captain Craig Wallace and Scott Cunningham.

The girls team set nine new school records with Janice Woods holding six of these. In the 200 freestyle Janice had a time of 2:36.28, in the 200 individual medley 2:56.44, the 50 freestyle :31.39, in the 100 freestyle 1:11.25, in the 400 freestyle 5:36.93 and finally in the 100 breaststroke 1:25.30. Other new school records were set by Liza Sharkey in the 100 butterfly with a time of 1:22.09, Kerri Peters in the 100 backstroke with a time of 1:22.63, and the 400 freestyle relay with Denise Rivier, Samantha Backer, Heather Solanka, and Michelle Chiaramonte in 5:36.63.

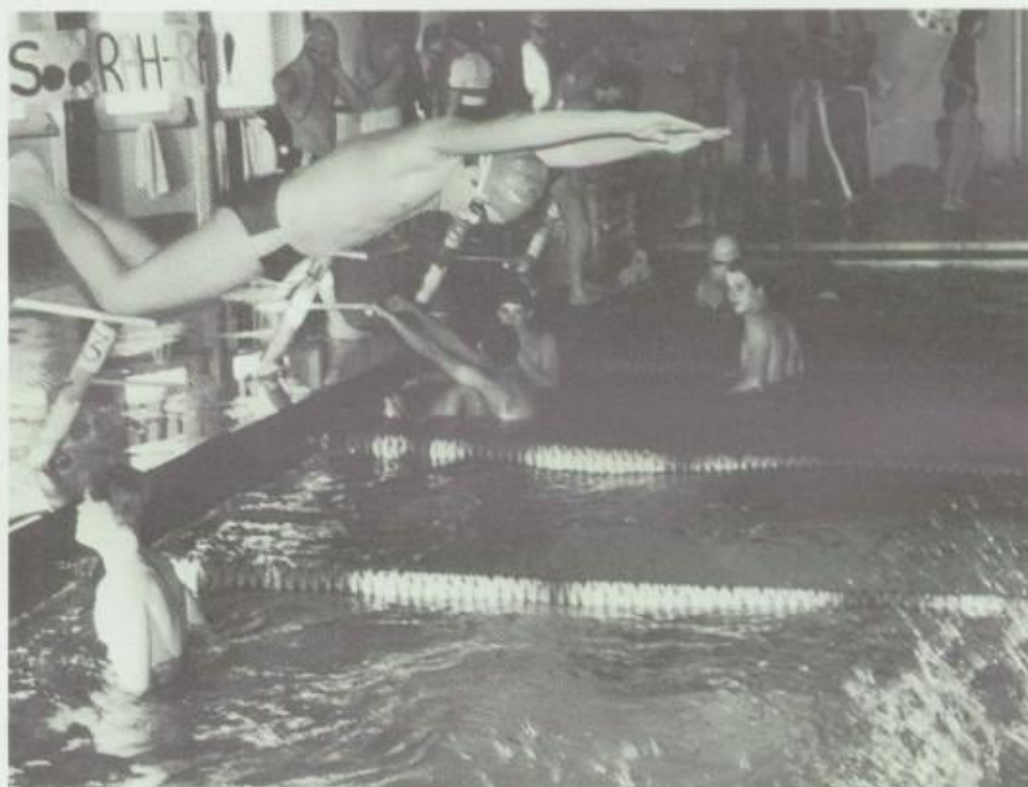

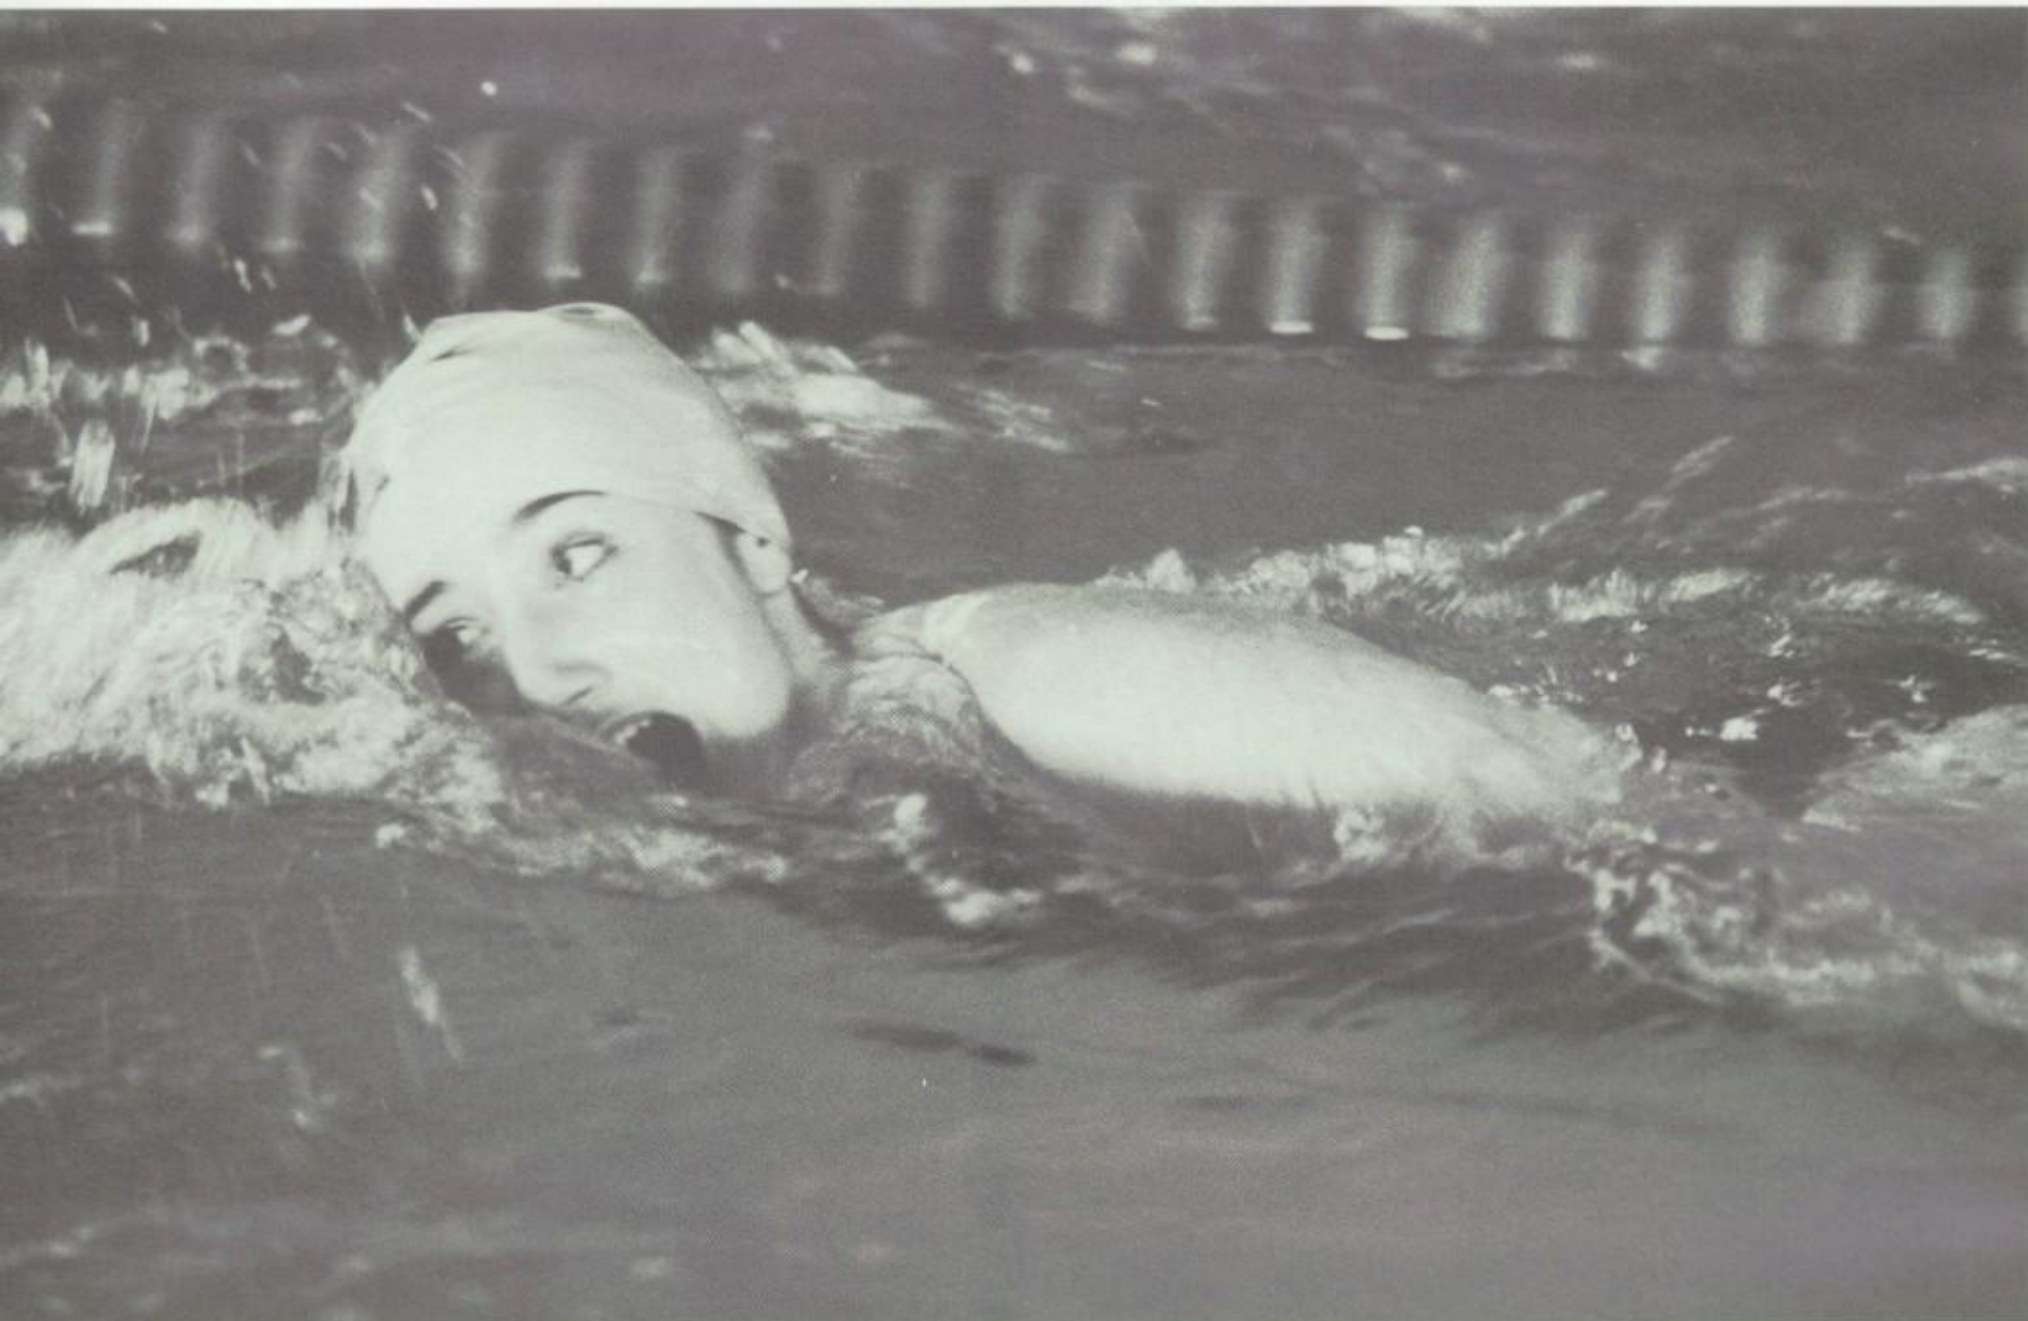

The boys had four new school records with Dave Leshnower holding three of them and Paul Peters holding one. Paul swam the 400 freestyle with a time of 5:11.19. Dave swam the 200 freestyle in 2:20.74, the 50 freestyle in :26.33 and the 100 butterfly in 1:05.87. Dave also holds two other individual school records.

The total team effort was one of dedication to practice that often meant getting home after ten o'clock at night. Meet times ranged from 3:45 to 7:00 p.m. and schedules were erratic. When Vikings were performing, the rest of the team cheered them on in the hopes of encouraging them to do their personal best. Experience in the summer leagues also another added bonus.

Young wrestlers show promise

A record of 4-9 for the Viking matmen includes wins over Lakeland, Lenape Valley, Kinnelon, and Wayne Valley. This record demonstrates a one hundred percent improvement over last year's 2-11 record. Even better results are possible in the coming years with a young team that has two seniors, two juniors, six sophomores, and two freshmen on the varsity starting line-up.

The 1986 squad was led by seniors Pete Poulas and Chris Cerrato. Junior team captain was Russ Rogers. Injuries early in the season plagued the Vikings with starters Gary Neuman, Mike Mulvaney, Vince Ditta, Frank Vayo, and Brian Peragine on the disabled list.

Both teams finish second in state

There was tension in the air and a rush of excitement under the warming sun on the Helen back racing trail at Hidden Valley as the the Vernon ski teams competed in the state championships on Friday, February 28. Both teams placed second overall. Harvey Bierman placed first and Mark Morosoff second in the individual totals.

In the Sussex County Interscholastic League the boys team placed first with a 29 and 1 record for the season. The one loss came from not enough finishes. In the B league which includes Sussex County and part of two other counties the girls team finished second. One of their races was lost by only 13 one-hundredths of a second.

Vikes bowl to third place tie

Third place in the SCIL with an impressive record of 49-23 was the final ranking for the Viking Varsity Bowling Team. In the first third of the season, the Vikes ranked first but couldn't hold onto that spot. The Junior Varsity squad finished in second place with a 57-15 record.

The team was led by All SCIL freshman Eric Brown and senior captain Mike Wright. The high individual series of 588 was rolled by Eric Brown who also compiled the high individual average of 172. Al Fiorita claims the high individual game with 227. The high team game of 883 was rolled against Newton and the high team series was 2633.

Coach rebuilds and sets goals for future

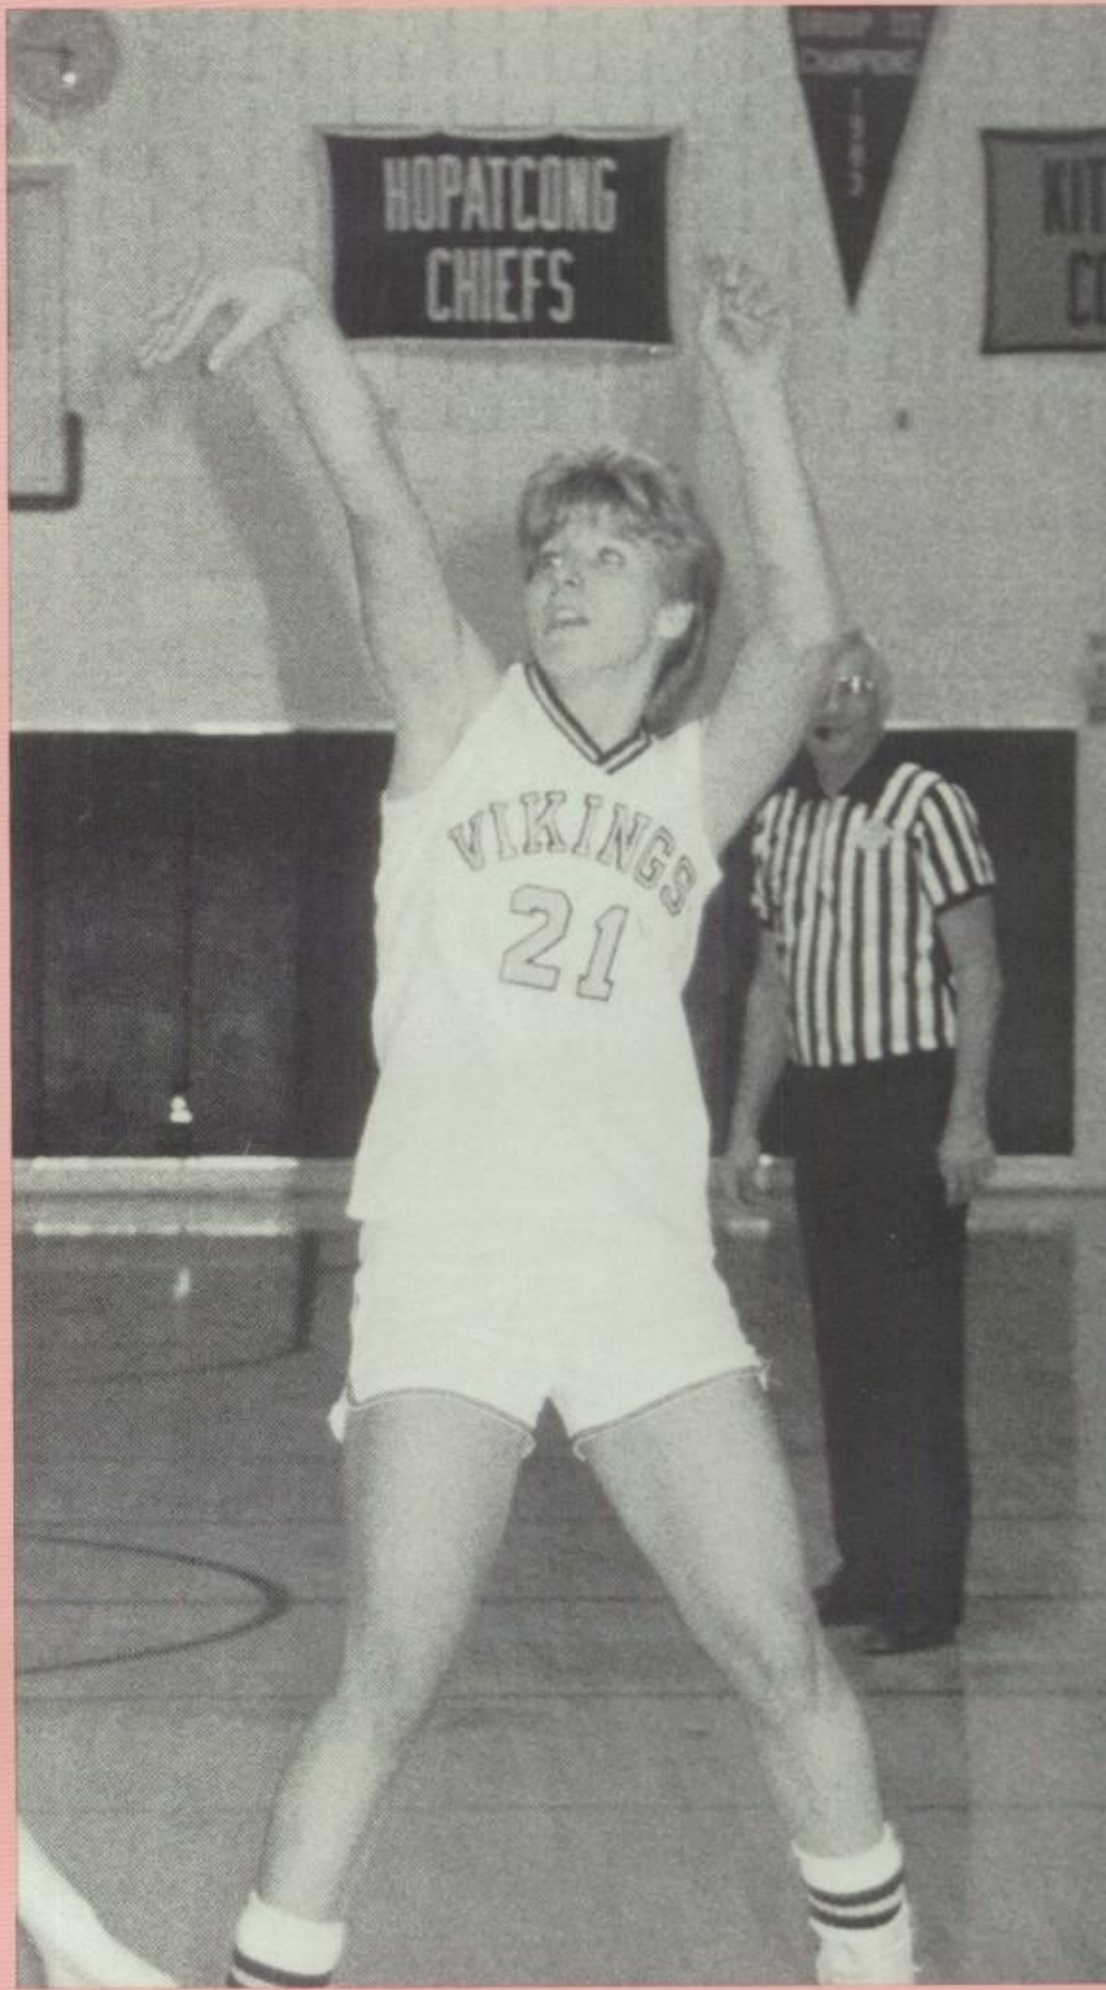

"It took a lot of patience and hardword" states Coach Phil Hardin regarding the inexperience of his 1985-86 Girls Basketball Team. With only one returning starter, the season was one of rebuilding. The team worked gradually on basic skills and set their sights on each game as it came. Despite the Viking record, the Coach believes "it was the challenge to get better" that kept the team alive.

One of the highlights of the season was the 59-55 upset victory over Newton. There were three close decision losses, one of which was dropped in overtime. The standout on the team and in the county was junior Lisa Parak who was named to the All S.C.I.L. team.

Knowing that most of the 85-86 squad will be back next year makes the goals of qualifying for the league tournament, qualifying for the state playoffs, and having a winning season realistic.

Right: Junior Lisa Parak takes a jump shot. She came on strong in the first half to score 10 of her game high 14 points. Lisa was consistently high scorer for the Vikings.

Going the distance

Coming off a 7-2 campaign for spring of '85, the '86 girl's track team had high hopes for a successful season. Enforced by strenuous practices, total team effort was necessary to win. Several standouts added to the team's dominating force. Lisa Parak returned after taking fourth in the discus in the '85 Meet of Champions. She is unbeaten in the discus in SCIL dual meets and holds the school record for the javelin. Jen Rineer, who finished first at the Group 3 sectionals, will also add to the strength of the field events. Noel Knecht, holder of the school record in the 1600 led in the long distance events.

Reaching new heights

Improving the 4-5 record from the spring of '85 was the aim of the '86 boys track team. Although small in number, the team was large in terms of quality athletes. Distance events were expected to be the Viking's strongest area with Tim Connelly, Drew Heady, and Rich Falcone appearing on the track with top cross-country running experience. Sectional champion and all-area pick in '85, Ron Schneider, pole-vaulted at 13'0". Mike Mahoney holds school records in the 110 high hurdle, 400 hurdle, and the high jump at the start of the season.

Front row: Andy Blandino, Howie Sajecki, Scott McKee, Bob DeSaye, Dave Wassmer, Ron Schneider, Drew Heady, Bruce Zydel, Tim Connelly, Dave Kinsey. Middle row: Sean McHugh, Lee Bonelli, Chuck Colfax, Brett Jurkovich, Anthony Graham, Dan Newman, Vince Ditta, Mike Wassmer, Kevin Peragine, Rich Falcone, Chris Dickson, Chris Hollar, Coach Phil Tintle, Coach John Ryan. Back row: Coach Jefferson Holbert, Bill Wesloske, Glen DeBiasa, Rich Buckley, Frank Sherwood, Mark DiGuilio, Matt Coppola, John Mulligan, Carl Schotter, Bill Hollar, John Grube, Mike Embleton, Chris Grant.

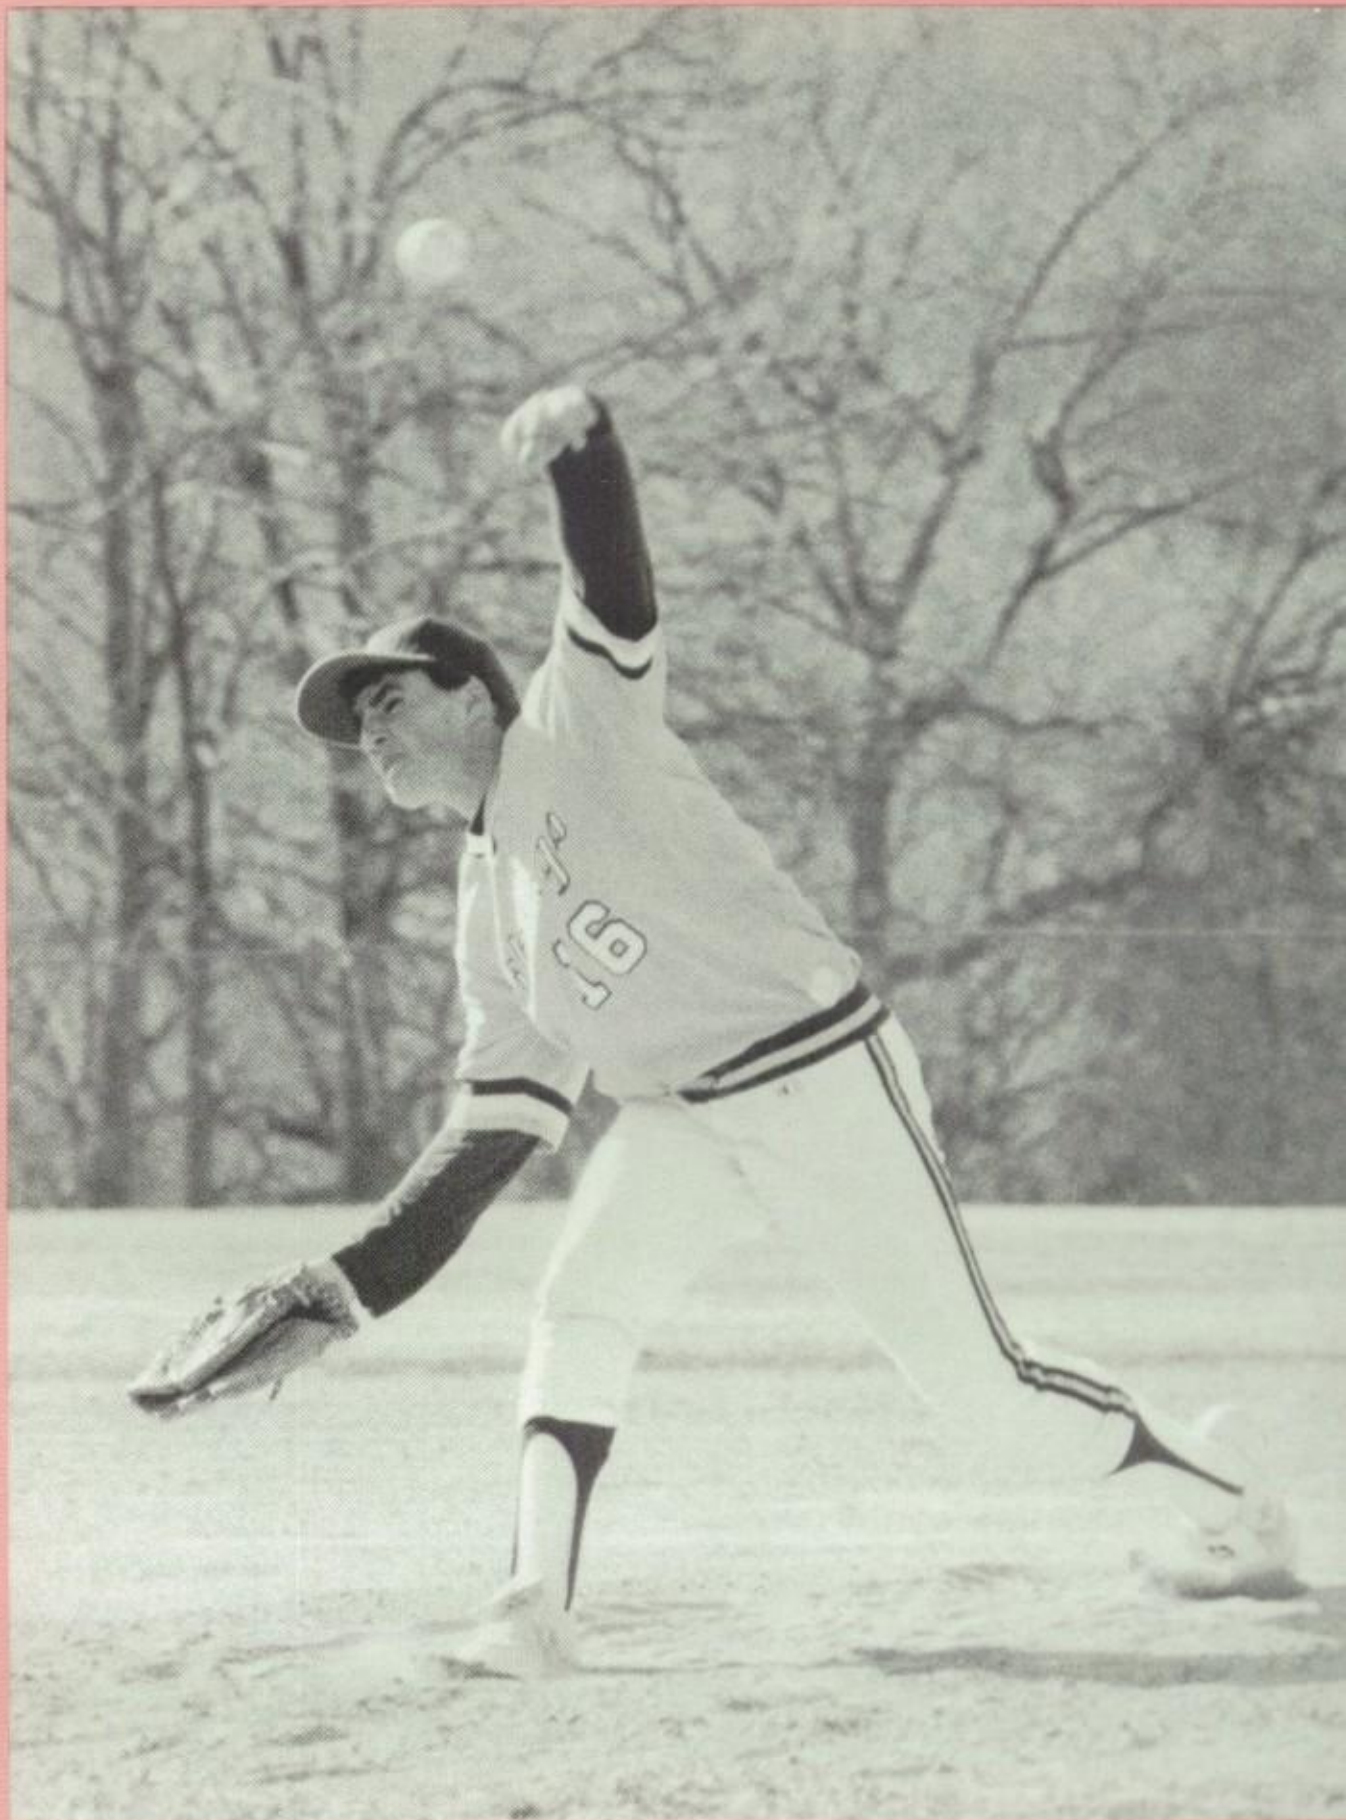

Vikes win opener

Coming off a 13-11 season during which the Vikings posted two big wins over the state champions, the Newton Braves, in regular SCIL play. The Vikings dropped a 2-1 decision to Teneffly in their first state game. This year's varsity squad was lead by returning lettermen Bill Labance at shortstop, Bill Fitzpatrick at third base, Allan Vitkosky behind the plate, and Glenn Whaley in center-field. The rest of the 1985 Viking baseball team was lost to graduation. Filling these positions will be Mike Olsen and Mike Wright in left field, Don Kroeller and Dave Wacker in right field, Gregg Jones and Ray Milligan at first base. On the mound will be Ray Milligan, Gregg Jones, Allan Vitkosky, and Mike Olsen.

It's in the hole

The whiplike hum of the club, the satisfying crack of the ball, and then a distant thump of a landing are familiar music to the serious golfer. With four returning varsity lettermen and the largest turnout ever, the golf team hoped for a successful season. First year Coach Bruce Crisman had expectations to be, "at least competitive." Last year's 6-13 team graduated three players. This year's team was led by seniors Floyd Romyns, Gene Frieling, and Rich Kerr, junior Bob LaBar and sophomores Scott Fitzgerald and Mark Godfrey.

Match point

Improvement was the motto for Viking Tennis. The team's goal was to better last years 3-12 record. Coach Pete Gersie hoped the team would be competitive. The strength of the team proved to be singles where Jim Reiser led the other returning letter winners senior Charlie Furce and junior Paul Schwarz. Newcomers to the Viking team were senior Adam Wolf, junior Kevin Koenig and freshmen Eric Meichsner, Bill Foley, and Dave McMullen.

Lady Vikes bat it out in '86

Good leadership and quality playing are the key ingredients in the recipe for a successful Vernon Vikings softball team. Coach Robert Trenz and his five returning seniors worked hard to be ready for the season. The seniors are Renee Boeren, Sue Carlson, Diana Hannoeh, Marianne Papay, and Renee Stewart along with their manager/statistician Cindy Schotter. The team had to keep in mind their overall record of last year which was 14-6 and a league record of 13 and 3; they hoped to match it. The Lady Vikes strength came from juniors Patti McGill and Noelle Stewart on the mound and good fielding support from their teammates.

Let's hear it for the Vikes!

Second place was claimed by the 1985 Boys' Cross Country team at the North I Section I Group III meet at Garrett Mountain Reservation in West Paterson, New Jersey. The Vikings ran an extraordinary pace which placed three boys in the top ten. Rich Falcone finished fifth, Tim Connelly seventh, and Drew Heady ninth. The girls team finished in fifth place. Marianne Papay was the first Vernon girl to cross the finish line and was in eleventh place. Noel Knecht finished twentieth with Janet DenBlyker close behind in twenty-first. The cross country teams fine performance at the sectional meet enable them to advance to the Group III State Championships at Holmdel Park in Holmdel, New Jersey. Here the boys finished eighth overall and the girls fourteenth.

The 1985-86 girls Field Hockey team met High Point for their state play-off game. They came up short by losing on a goal scored on a penalty stroke 1-0.

Capturing the State Sectional North I Group III Championship was the highlight of the 1985 boys soccer season. The Vikings exhibited a remarkable team effort and were also led by outstanding performances from Bill Fitzpatrick, Bill Labance, Bobby Roche, and Dave Kilby. Bill Fitzpatrick and Bill Labance were named All State Honorable Mention by the Coaches' Association. Dave Kilby and Bobby Roche were named All State players by the Star Ledger.

The first state game left the Vikes victorious by a 3-1 score over Old Tappan; goals were made by Bobby Roche, Bill Labance, and Matt Coppola. The game against Indian Hills ended with another victory and a 2-0 final score; both goals were scored by Labance. When the Vikings met Ramsey for the sectional finals, Labance scored the only goal which gave the Vikings the long coveted championship.

The boys soccer teams' determination and extensive training paid off with a rewards of the first sectional title in soccer for Vernon, the pride of accomplishment, and the joy of victory.

Activities

Whether you're interested in writing poems or news stories, acting in the spotlight or handling the business end of things, there is a place for you in Vernon's activity program.

Students are given the opportunity to go in their own personal directions and express themselves in their own way. They are able to enjoy developing their underlying talents without the pressures of a classroom atmosphere.

Committees make council effective

The list is long. The members are enthusiastic workers. Their efforts create good feelings, school spirit, and better communications.

One of the most active committees and certainly the most visual is the Spirit Committee. Pep rallies, signs, posters, and spirit week with Blue and Gold Day, Surf/Punk Day, I wanna be Day, and Hat/Class Color Day fell under its jurisdiction.

Other committees include DWI, Sunshine, Marquee, Community Service, Grievance, Button, Candy Canes Sale, and Carnation Sale. The functions are obvious and a welcome addition to school life.

A first for this year was a breakfast for the faculty. The surprise dinner tradition was revived.

Viking Voice speaks out

The first priority of the Journalism class is getting out a top quality newspaper. The *Viking Voice* is VTHS's newspaper and is dedicated to letting the students read about school happenings. Also included are other fun things, such as "Dear Violet," a help column, and "Horoscopes." "Corridor Commentaries" features the opinions of students and faculty on selected current issues.

The newspaper staff is instructed, helped, and encouraged by Ms. Donna Spector and Ms. Nora Szalavitz, the advisors. Getting a newspaper out includes a lot of work. The process starts with ideas and a search for stories. Then the staff begins the actual writing of the stories and deciding on what page each story goes. The most time consuming task is layout. When it's together, the pages are sent to the printer. The finished product is sold in all lunch mods for ten cents a copy.

Senior staff members Cathy Marone and Kirsten Connor are creating layouts for the newspaper.

Back Porch gets in touch with feelings

Getting the creative juices flowing and improving your writing are the main objectives of the Literary Journalism class which puts together the *Back Porch Review*, our schools literary magazine. In past years, the *Review* has won numerous awards and received superior ratings.

Ms. Therese Mattil and Ms. Donna Spector are the advisors with Teresa Metzger and Lissa Beatty as co-editors-in-chief. The first third of the year is used for sharing and critiquing written pieces of prose, poetry, and fiction in the hope of improving the staffs' writing. Submissions of art and writing are then accepted from students, faculty, and alumni. The staff decides what poetry, short stories, plays, essays, and art merit publication. Suggestions are made for revisions as needed. After all accepted materials are in final form, they are categorized under topics, typed, and the dummy made. The precious manuscript is then taken to the Highway Printing Company in Florida, New York. Orders are taken through English classes and copies delivered for quality reading anytime.

More than messengers

"What would we do without them?" asks the guidance staff. Whenever a student is needed by a counselor, the nurse, the attendance office, or an administrator, off goes a runner with the message. But these volunteers are more than just messengers, they lend a helping hand whenever or wherever it's needed under the supervision of Mrs. Jan Hennings.

Study hall teachers depend on the services of library aides like Evelyn Ortiz, Alison Brasiliere, and Shannon Barnes (above left) to determine which of the students under their supervision have made use of their library privileges. These aides also assist Mr. Howard Bateman and Mrs. Adona Pearson with whatever jobs need to be done including mail pick-up and book sign-out.

Teens get involved

Driving while intoxicated (DWI) is not the smart thing to do according to the statistics. Teens are warned again and again about the dangers of drinking and driving, usually by teachers, parents, and policemen. Now teens are talking to teens and hoping to make a more lasting impression.

The DWI program was started by student councils throughout the county. The committee sponsored a week-long effort to focus attention on the problem. The effort culminated in a dance-a-thon on December 21, 1985 at Vernon Township High School. Proceeds were used to further the promotional activities of DWI.

Below 32 and snowing

The coldest day of the season to date marked the opening meeting of Ski Club on December 16, 1985. The club is made up of people who are interested in skiing just for fun and not in competition. The club provides a financial advantage to its members. Mrs. Paula Pyrcz and Mr. Terry Cassidy, once again, supervise this after school activity. Members ski at Vernon Valley from 3:30 p.m. to 8:30 p.m. on Monday. The program allows for six sessions.

Two sides to business story

An inside look at the world of business reveals many facets. Whether your business interests are accounting and typing or advertising and merchandising, Vernon's business department offers a club activity just right for you.

DECA, the distributive education program, gives students a realistic view of the business world through hands on experience. The opportunity to participate in co-op provides paid work outside the school for class credit and work in the school store.

More than just selling candy, the store has expanded its stock to include clothing, toys, jewelry, and greeting cards. To make this change successful students used what they learned in class and applied it to operating the store.

DECA sponsors many events throughout the year including Donkey Basketball, an orphan's Christmas party, NARCON competitions, and a spring fashion show.

FBLA, Future Business Leaders of America, deals with another aspect of the business world and encourages students to excel in basic business skills that can be used in future careers. The annual Type-a-thon is used to help raise money for the Leukemia Fund. Fund-raisers include selling cookies and jelly beans. Competitions and visits to various businesses are also on the FBLA schedule.

March 21st 7:00pm: press costumes, apply makeup, and check scenery. 7:30pm: half an hour till curtain, cast and crew back stage and silent. As the crowd begins to take their seats, the first combined production for Mr. William Donald and Mr. Richard Zweier opened to the music of the nun's chorus.

The cast and crew consisted of over sixty members ranging from grades five to twelve. The true story of the Von Trapp family came to life on the Vernon stage. The family of singers left their native Austria to flee the Nazi regime.

Lissa Beatty, member of the nun's chorus explains that the musical gave her "new dimensions in what I can achieve. I made a lot of new friends while having a good time and working hard. It was an experience I'll never forget."

For fifteen of the Mainstage Players, this was their last High School performance.

"Nothing beats the sound of applause,"

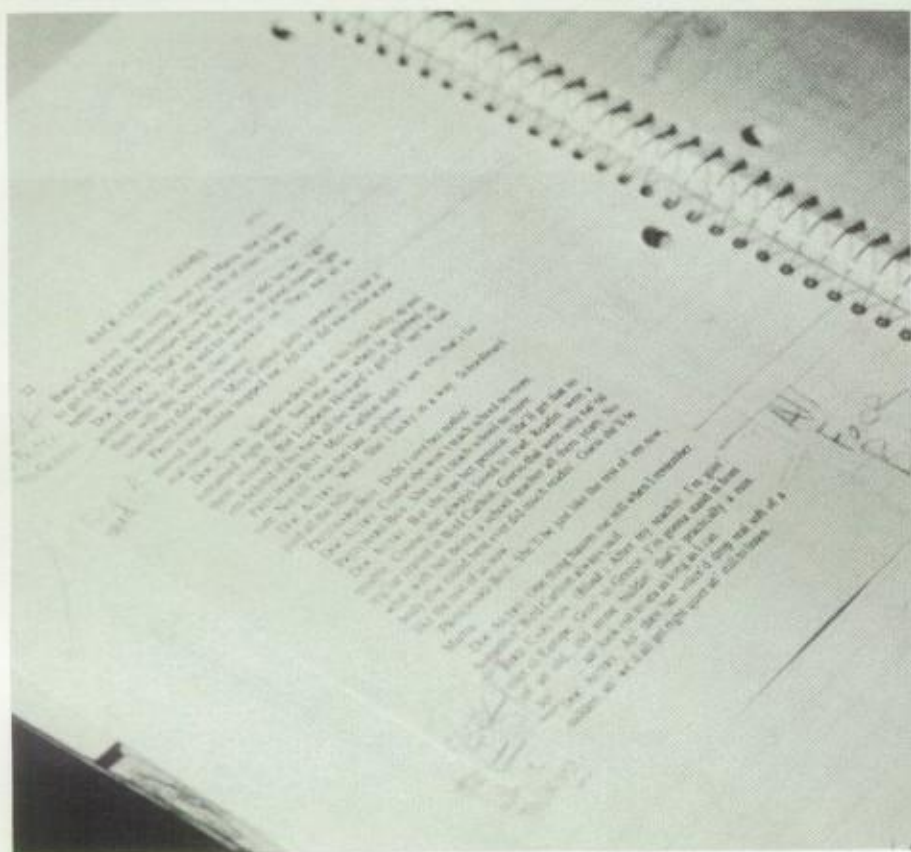

said Joe Lenartowicz after the final curtain on closing night.

Applause is what was heard after two stunning performance on December 6 and 7. The lighting was sharp, speech was crisp, and mistakes were few.

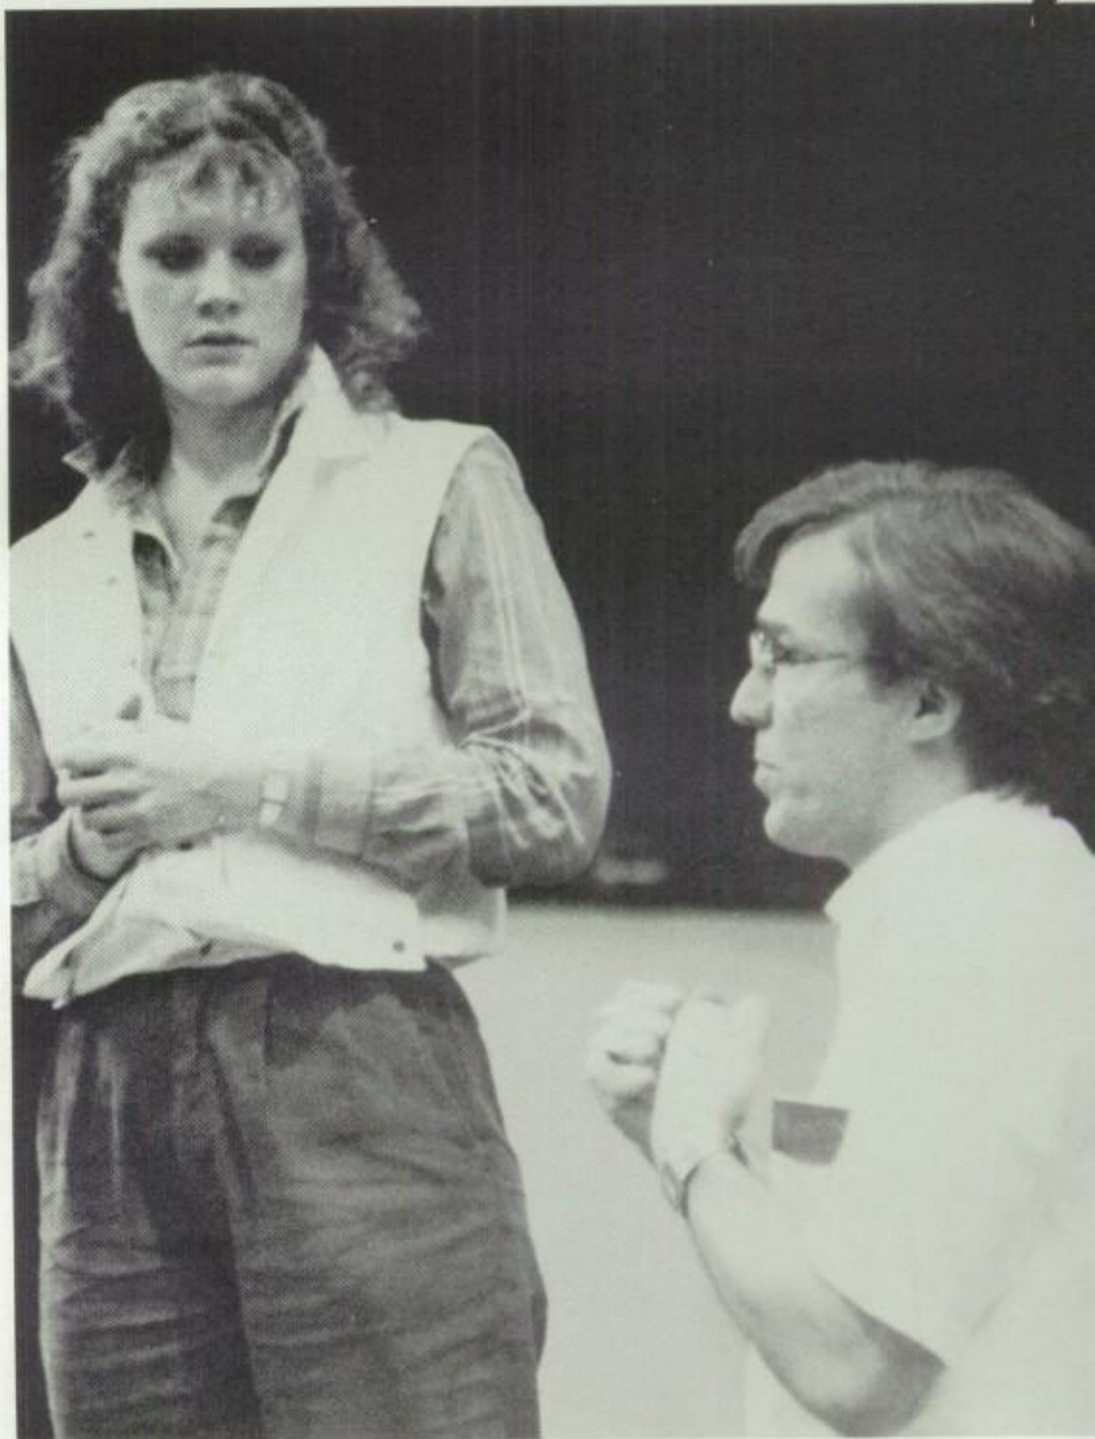

The production cast and crew for the fall drama *Back County Crimes* underwent a series of changes with the direction of Mr. William Donald. In his debut production here at VTHS, Mr. Donald definitely used new directions in lighting and casting. Mrs. Irene Franklin was the business executive in charge of sales and ads. Other people behind the scenes were Stage Manager Jeff Zduniak, Assistant to the Director Tara Jenkins, Props Mistress Julie Beier, Wardrobe Mistress Cindy Schotter, and Head Usher Kim Neff.

The technical end of the production was supervised by Mr. John Bryan and the lighting done by Keir Weyble and Drew Kiermaier.

Technology makes classes interesting

Imagine all your classes without the audio-visual aids of the 80's. All that would be left would be textbooks and chalkboards. No more 16 mm movie to re-create the landing at Normandy, no more television screen to show whales in their Caribbean habitat, no records to hear the philharmonic, no slides to illustrate Michelangelo's genius, and no tape to hear yourself speak French.

We are so accustomed to the sights and sounds of 1986 that our classrooms would seem dull without them.

The perfect complement...

By definition, complementary units are "to fill out, complete, or make perfect" the marching band. The task is momentous but well handled by Mr. Dave Willard and Mrs. Irene Batchelor, directors of the color guard and flag squad. Some eleven young women compose

the ranks and they perform with the marching band at half-time and pre-game shows during football season. They also appear at pep rallies, graduation, and parades.

Instrumental program well worth the effort

If students have chosen band as their elective at V.T.H.S., not only do they get to enjoy and use their talent for music but they are guaranteed to put in endless hours of practice to earn five credits. The Marching Band plays at football games in the fall and in parades in the spring. The Concert Band performs at the Holiday Concert and at the Spring Concert. The Brass Choir plays with the vocal groups on special occasions. Individuals and small groups participate in the Music In Your Schools week concert. The complete instrumental music program is under the direction of Mr. David Jones.

Left: Senior Drum Majorette Tracey Hornby and Junior Drum Major John Rothwell lead the marching units during the half-time show at the homecoming game. Both were selected by Director Jones the previous spring for their knowledge of music and ability to perform. Tracey also serves as Band President and has been a member of the unit for four and a half years. Below: The Marching Band entertains on Viking Field for Vernon fans and visitors. One of the favorite numbers this season was the theme song from "Rocky." The Drum section members are Mark Carbonara, Chris Smith, Scott DeFalco, and Brian Levy.

Craig Ingler plays the baritone and could have been heard in the musical number "Basin Street Blue" by Spencer Williams which features these horns. During the Holiday Concert "Chant and Habilo" by Francis McBeth featured a baritone solo.

Vernon students host Special Olympics

The coordinator of the Special Olympics visited Vernon Township High School and asked the students to volunteer to host a celebration for the disabled. The celebration took place at the Americana Hotel on the thirty-first of January.

Over two hundred Vernon students were bused to the Americana to meet and congratulate the athletes who had participated in cross country skiing and other ski races at Hidden Valley and Vernon Valley/Great Gorge Ski Resorts. Games included Snow-ball throwing

contests, "Super Hugs," "Lean-n-Sit," and "Simon Says." Songs were sung and there was a lot of friendly fun and laughter. The athletes seemed happy and proud of the medals they won and were willing to show them to anyone who was interested.

Although students could only stay at the Americana for two hours, it was obvious that some new friendships were made. Students reluctantly boarded their buses, feeling good about being part of a special event for special people.

has become a holiday concert tradition. Directed by Mr. Richard Zweier, the chorus continues their success year after year. In addition to their annual Holiday and Spring Concerts, the chorus added to their schedule a trip to the Pan Am building in Manhattan to sing for Toys

for Tots--an organization which collects games and toys for less fortunate children. The group also caroled through the streets of New York City from St. Patrick's Cathedral to Rockefeller Center, inviting bystanders to join in the singing. It was an experience to carol about!

A goal and

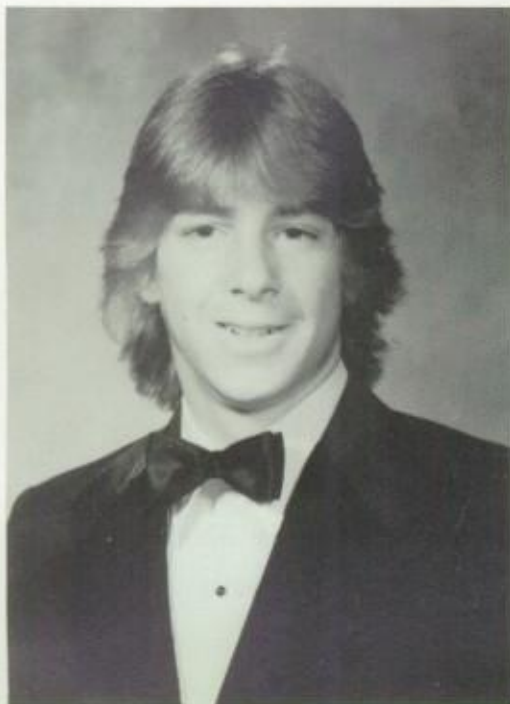

To want to be a senior is a goal in itself, but to be a senior is a well received gift. The class of 1986 is the last class to have attended Vernon Township High School for five years. The class entered high school as eighth graders, and what a challenge it turned out to be.

The class of 1986 has accomplished much in its high school career, earning the Spirit Week title in their sophomore and junior years, challenging the rest of the school to a volleyball game in their sophomore year and winning. Most of all, the class of 1986 has earned the respect of the administration, the faculty, and other classes.

Work done with anxiety about results is far inferior to work done without such anxiety, in the calm of self-surrender.

Who runs the show?

Old pros and ambitious newcomers make up the slate of officers for the class of 1986. The old pros include Keith Tavares and Lori Spring. Keith has been a president for three years. In his sophomore and senior years Keith was president of his class and in his junior year he was president of Student Council. Keith, at many times, has had to make some hard decisions and, most of the time, his decisions have proven to be correct. Next in line is Lori Spring who for two years has been class secretary. Lori has worked very hard and has always been involved with class activities.

The newcomers were Linda Walter and Julie Morse. Linda is vice-president and Julie is treasurer. They have been very ambitious and have proven that the class made the right decision in electing them.

The senior class advisors, Mrs. Ilene Franklin and Mrs. Janet Lyons, have worked with the Class of 1986 for four years. They have worked just as hard, if not harder, than any student to make these four years a complete success. Together the officers and advisors created lasting memories.

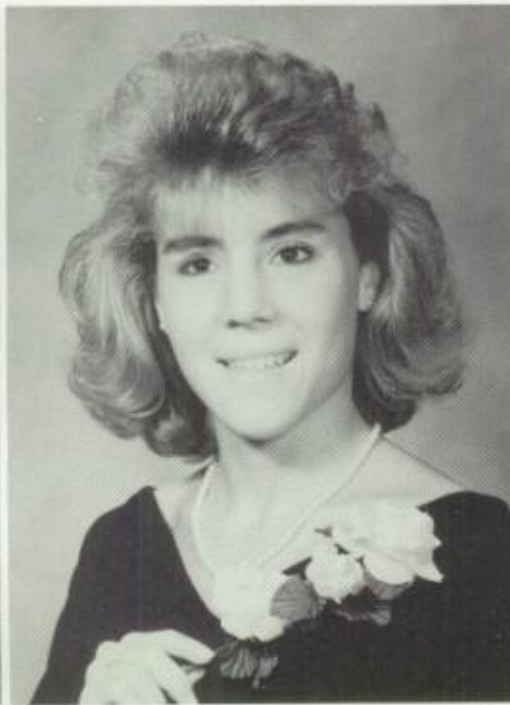

Joe Zinno and Tim Shenise help support the senior class by buying refreshments at the concession stand. The most popular items on the menu this year were hot dogs, hot chocolate, and starburst candy.

Keith Tavares helps out in the concession stand which raised close to two thousand dollars for the senior class treasury. The funds will be used to help offset the cost of the end-of-year activities.

Their success will provide a brighter future

By dictionary definition, to succeed means to obtain good results. Doreen Pressimone says, "Hard work is the key to success." Charlie Furce says, "It's a combination of hard work and making good use of time." Most certainly they have both put in a lot of hard work and obtained good results. They earned the distinction given them by their classmates of being the most likely to succeed

in the class of 1986.

Doreen has a 4.0 grade point average and is planning to go on to college. She wants to be an early childhood teacher and expects to attend Trenton State College in New Jersey. Charlie leans toward business administration or international business. His 3.7 grade point average will probably get him into Notre Dame in Indiana.

Chauvinistic stereotypes found at Vernon High

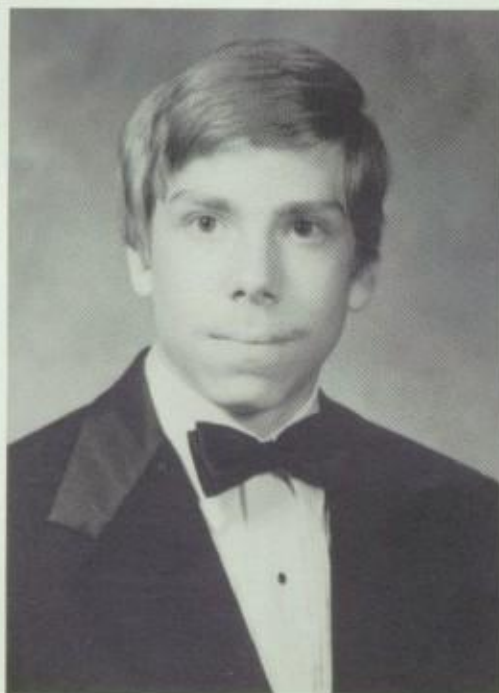

Stereotyping can create some strange impressions and earn individuals some unusual titles. Gene Freiling has been given the title of Male Chauvinist. Gene earned his reputation due to a comment he made while discussing sexist language for a paper in Journalism. He said, "He was more important then she." Now that he has the title, Gene remembers saying "Women feel inferior to me; they think I am trying to put them down but really they're putting themselves down."

Carol Ann Boyko has been named Women's Libber. Carol feels that people believe a women's libber is someone who is an ERA-women's liberation fanatic. She described herself as "in reality, an independent person who feels that women should be given a chance to live for themselves and not have stereotyped guidelines rule their lives." Carol plans to go to college and have a career; eventually if she gets married and raises a family, she will still want her own independence and individuality.

Qualities of true athletic champions

Hard work, determination, competitiveness, and leadership describe Glenn Whaley and Renee Boeren, the seniors voted Most Athletic.

Glenn is a member of the football, indoor track, and baseball teams. He is captain of the football team and a three year varsity baseball player. Glenn says, "My father was my coach when I first started playing football and he taught me to give one hundred percent at everything I do. I admire any athlete who isn't highly skilled but through hard work achieves great success.

Renee belongs to the field hockey, skiing, and softball teams. In field hockey, she is captain and has been named to All SCIL first team. She also led the team in scoring for the last two years. In skiing, Renee made the second team All SCIL. "Coach Trenz taught me not only the game but about myself, my attitude, and how to strive for goals," said Renee. "I love competition and working as part of a team to achieve the victories."

A matter of pride for spirited seniors

"We've got spirit, yes we do: we've got spirit, how 'bout you?" shout Ketith Tavares and Susan Beaver, the seniors with the Most School Spirit as indicated by the class poll.

Keith is president of the senior class and has been president of both the sophomore class and student council. His activities include soccer, track and field, senior advisor, and yearbook staff. To show his enthusiasm Keith is always in attendance at sporting events, especially football and basketball games.

Susan Beaver, president of student council, is involved with chorus, band, and drama. She was the chair person of the spirit committee, parliamentarian of the council for two years, and secretary of chorus for two years. She was selected to be a member of the County, Regional, All-State, and All-Eastern choirs. Susan can often be found at track, soccer, football, baseball, and basketball games cheering the participants on to victory.

Lights, camera, action

The audience becomes silent as the curtain opens. Suzy Schwarz and Victor Peel are center stage once again and under the spotlight as class actress and actor. Their performances include *Cabaret*, *Marigolds*, *Guys and Dolls*, *Back County Crimes*, and *The Sound of Music*. Their talent and devotion to the stage is appreciated by everyone who watches.

Memorizing lines and attending strenuous rehearsals pays off with the feeling of great personal satisfaction at the end of a good performance. As the lights dim and the applause fades, thesians are already thinking ahead to the next audition and the smell of grease paint.

Getting along with everyone key to congeniality

Being congenial to Lorraine Balinski and Robert Stesney means being able to get along with all people, not just certain groups of people. Bob's and Lorraine's friends say that they both find time to talk to everyone. They both enjoy being with people and having a good time. Lorraine and

Bob think it is important to genuinely care about people and to have friends in and out of school. The class of 1986 recognized their warm personalities and concern for others when they voted them the most congenial seniors.

Life of the party

Social butterflies have priorities that rank being part of a fun crowd at the top of the list. Surrounded by friends and acquaintances both Brian Hayes and Lori Kaplan are seen at all the major social gatherings. Both enjoy being part of

the interaction of personalities within a group. They like people so people like them. This feeling is communicated to others and probably the reason that Brian and Lori were named Mr. and Mrs. Social Life of the class of 1986.

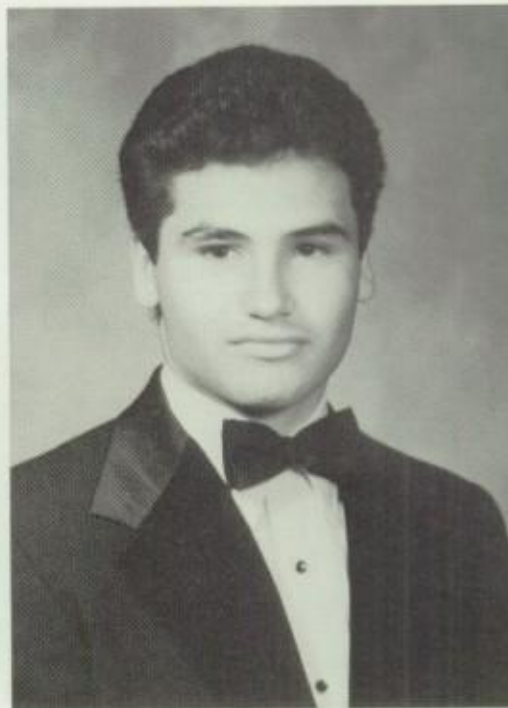

To remember and to be remembered

One of the new polls introduced by the class of 1986 was most likely to be remembered. The winners were Cathy Marone and Gary Newman.

Cathy had real trouble trying to figure out why she had been given the honor. Although she honestly didn't know why she would be remembered, she had no difficulty reflecting on what she would remember about high school. Cathy will recall the football and basketball games at which she cheered. Another memory will be "the pig," a ceramic mascot that attended games.

Now, Gary Newman is altogether another story. Gary said, "I can turn any ordinary situation into something bizarre." Classmates will tell you about the times when Gary ate flies, swam in Highland Lakes during mid-winter, and re-styled his hair into a Mohawk.

Remember when...?

Blandino's determination enables him to reach goal

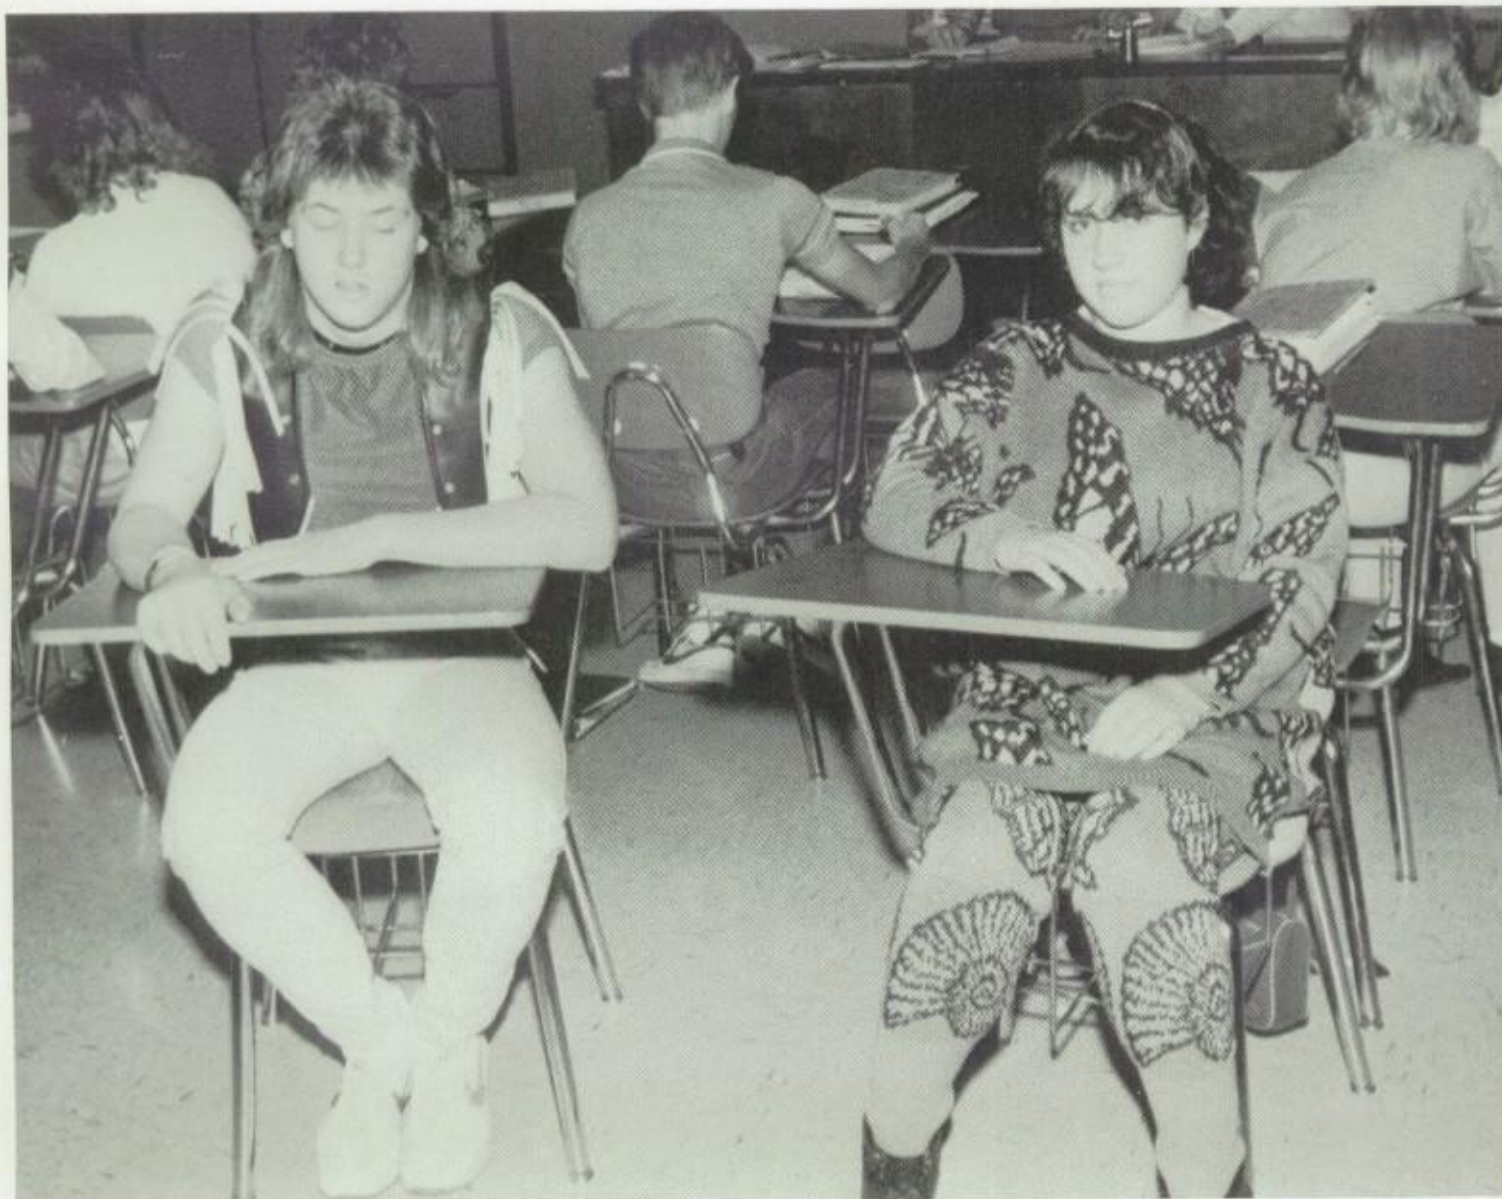

Four years ago Andy Blandino came out for the Vernon Cross Country Team. He knew that he wasn't the fastest runner of the team, but, he wanted to run. In these four years at Vernon, Andy has never missed a dual meet and he has run in every one. He was nominated captain of the 1984 and 1985 squads. Andy had set a goal to cover the Viking course under nineteen minutes. At his last dual meet of his high school career against Wallkill Valley he reached that goal. He ran a time of eighteen minutes, thirty-eight seconds.

Along with running cross country, Andy also participates in track. He runs distance events and always gives a one hundred percent effort. What makes Andy so special is that he always does the best he can. He may not be the fastest runner, but he is the most dedicated.

Acceptance important even to non-conformist

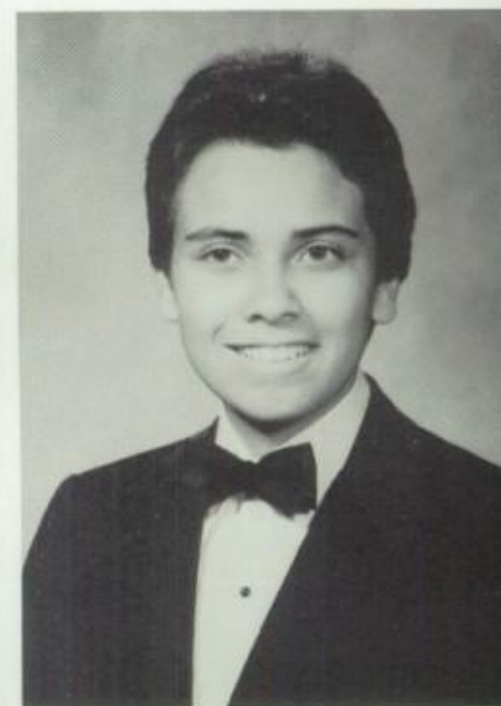

Being deliberately different is a matter of pride with the class non-conformists--Bruno Ferretti and Samantha Holman. Both might be considered "strange" by the establishment but in reality they are just expressing their individual personalities. The world may see outrageous clothes, far-out hobbies, and unusual hair styles. Listen and

Bruno will be heard saying he does it "to just be Joe into it" and his girl says he should "keep playing." "Sam" is not a true non-conformist because she does conform to her own circle of friends. Acceptance is important to everyone--conformist and non-conformist alike.

Seniors have Special Interests

The class of 1986 is one of diverse interests. Some of these interests may seem ordinary; others may seem bizarre. If seniors seem a little crazy at times, do not despair; they are just enjoying a little good-natured fun.

Kurt Driemel and Greg Acker are two of members of the class of 1986 that enjoy snorkeling. They prefer to dive without tanks because it enables them to move more freely. When photographed they were waiting for the spring thaw.

Below: Jeff Rosenberg uses the privileges granted him by his smoking pass during his lunch mod. Below left: Bob DeSaye participated in the last day of spirit week and thereby earned points for his class in the competition.

Above: Jim Clayton was the subject of a sculpture project that was started more than four years ago when Jim was in the eighth grade. He volunteered before he really knew that his entire body would be encased in plaster for approximately four hours. Mr. Jay Schweitzer and Mr. Ray Boswell then took the mold made from Jim's body and cast it with concrete. The figure stood for a short time at the far end of the sidewalk in front of the high school and represented the hopes and dreams of the incoming student. Jim said that by the time the figure was completed he was already a few inches taller. Left: Lynn Havens is painting to complete one of the requirements for her Art Major class. Below left: Mike Mahoney expressed his feelings about class problems of communication during a special class meeting. Below center: Kirsten Connor works at the Gift Shop at Vernon Valley. Below: Jim McCoy works in the food and beverage area at Vernon Valley, the single largest employer of Vernon High School's students.

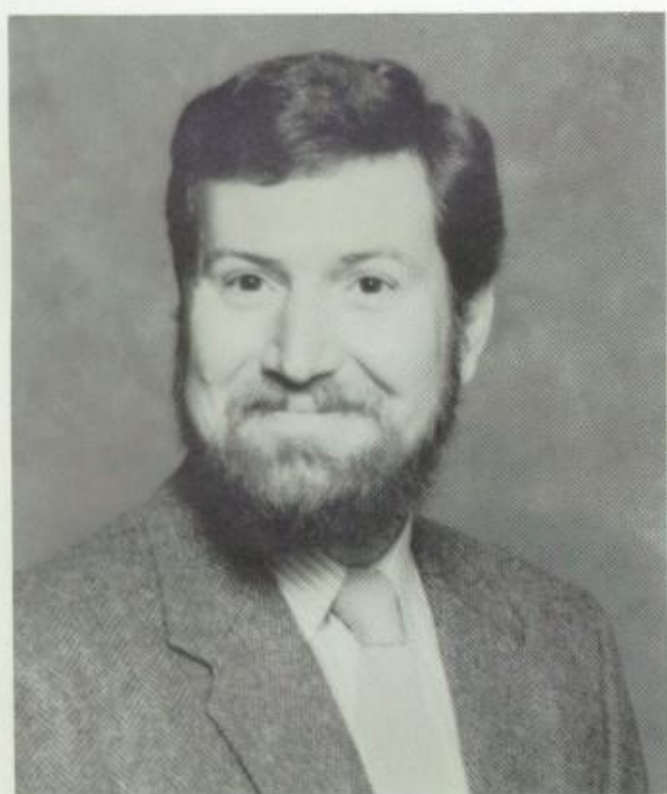

Curriculum

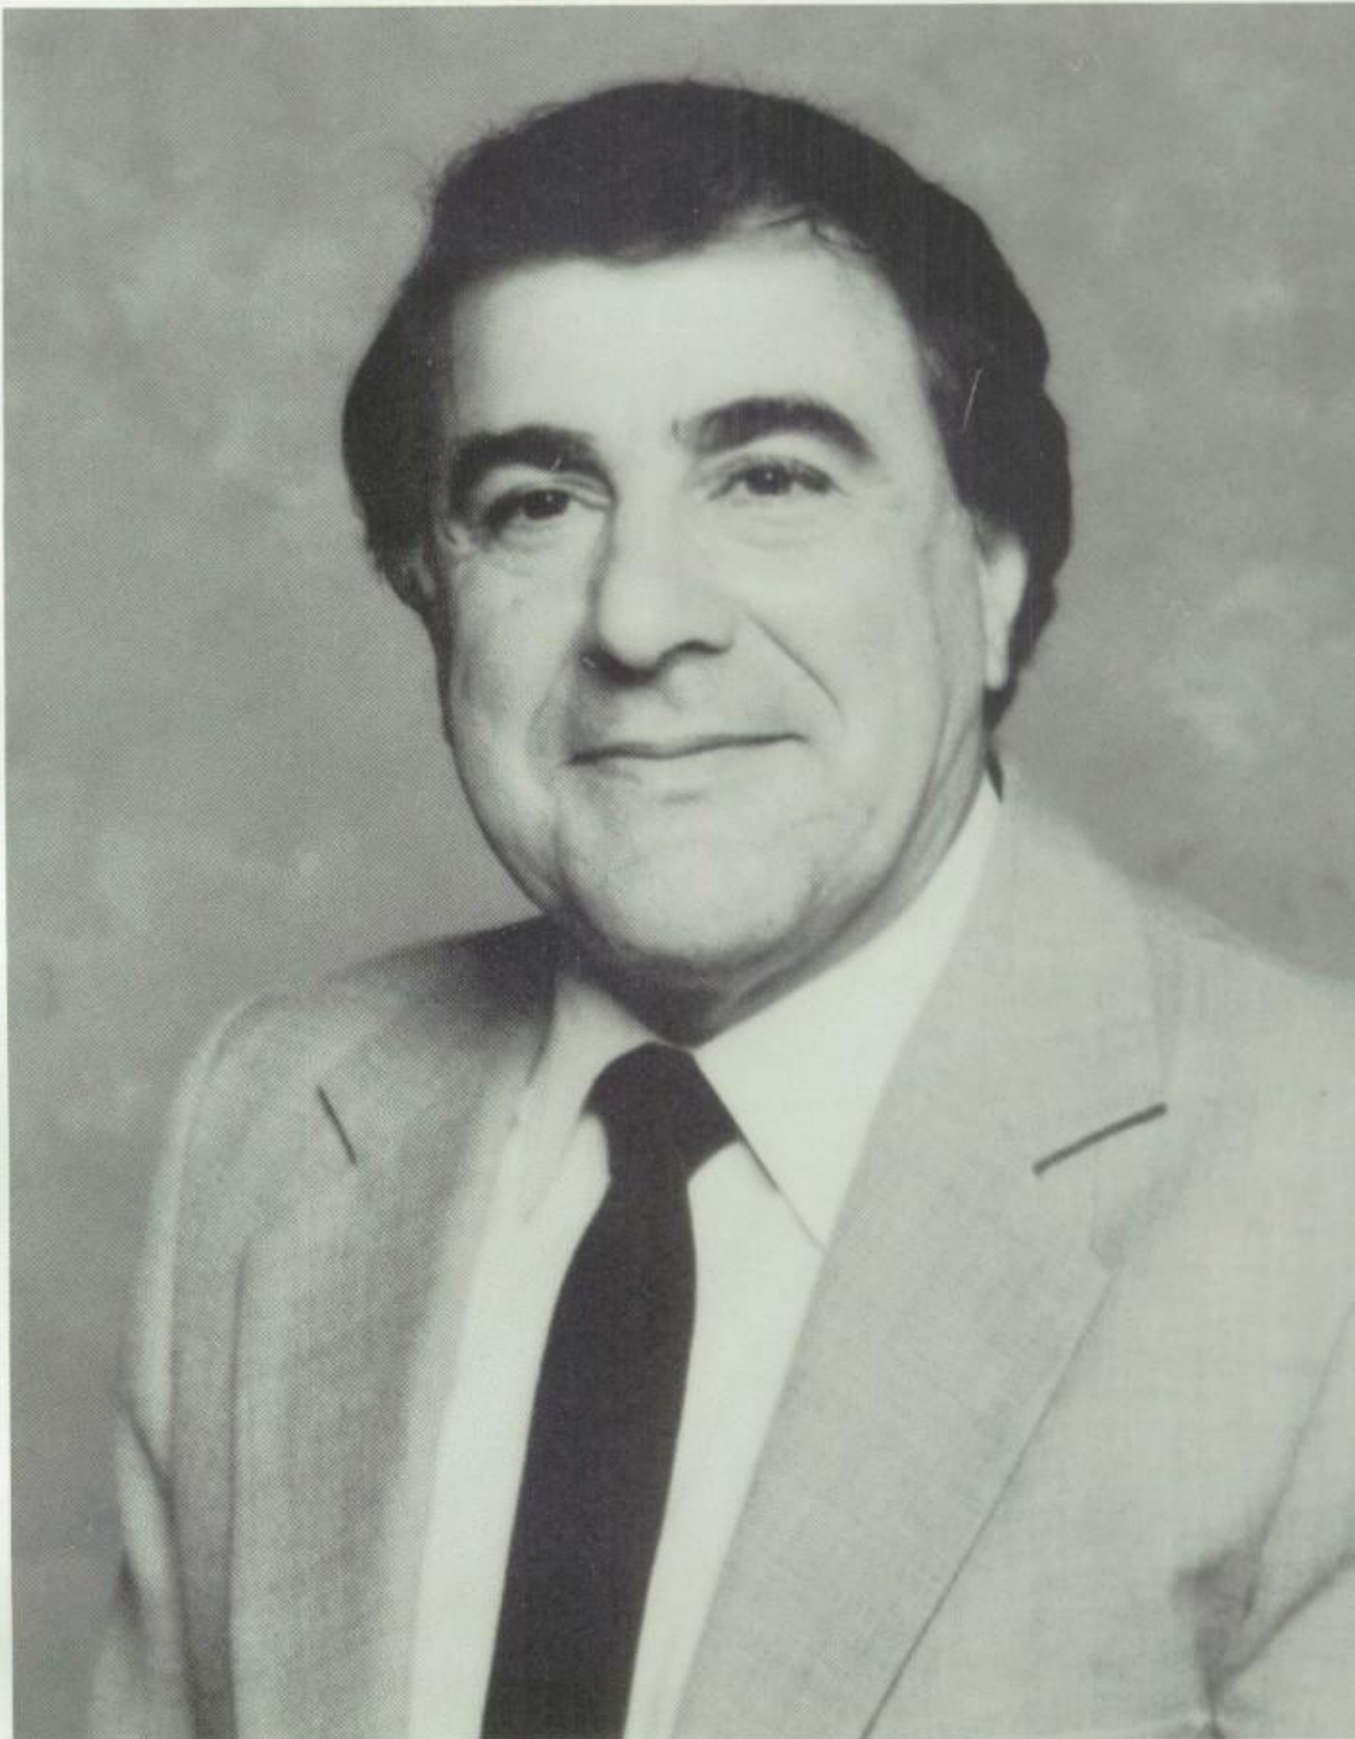

Sharing tasks eases pressure

With constant growth in school population in its ten year history, the need for an additional high school administrator became obvious. Also acknowledged was the need for a woman at this level. The search began and ended with Ms. Joan Skelly who now shares the work load.

The principal's role has remained much the same. The vice principals have split the alphabet for discipline which remains a large part of their job. Supervision of personnel and committee assignments are also split. The end result is meant to be a more efficient and effective administration providing leadership for VTHS.

Woodruff tops in her field

Office manager Mrs. Joanne Woodruff serves as secretary to Mr. R. J. Parrella and plays an important part in our school system. Among her many specific duties are handling all correspondence, handling the petty cash account, and scheduling Mr. Parrella's appointments.

Mrs. Woodruff has been involved in our school system for ten years and has been Mr. Parrella's secretary for three years. Jokingly, she is referred to as "the woman in the plastic bubble" by her daughter and friends, because of the special glass section she uses as her office. The divider was set up to produce less traffic around her desk when she is working on confidential information.

When asked if she is treated differently because of the importance of her position, Mrs. Woodruff replied, "No, not really, but there are those times when special people come to visit the school and the first person they ask for is me."

Scholars inducted

Leadership, scholarship, service, and character are qualities that describe the members of the National Honor Society. Fifteen people were inducted on January 13, 1986, joining twenty second year members.

The ceremony was held in the auditorium and consisted of the traditional lighting of candles. Brief speeches were given by Doreen Pressimone, Marianne Papay, Linda Walter, and Charlie Furce on each of the honor qualities. Rich Boston led the flag salute and Glenn Whaley recited the National Honor Society pledge. First year vice principal Ms. Joan Skelly and National Honor Society coordinator Mrs. Alice Groome accepted the candidates and placed the symbolic cord around each neck. The ceremony was followed by cake, coffee, and punch in the cafeteria.

Immigrants problems studied through simulation

Above and beyond the call of duty might be one way of describing the activities of classroom teachers involved in escaping the usual textbook type learning through simulations. Atmospheres are created whereby students learn through experience.

U.S. History II students study immigration by assuming the roles of immigrants. Wearing costumes is meant to increase awareness of ideas and feelings. Physical hardship as well as prejudice become obvious problems to individuals through simulation. Frank Gerkins (left) masqueraded as the typical immigrant from Italy and Rich Engler (below) as a newly arrived Russian hoping to become an American citizen.

First Aiders demonstrate life-saving skills

At the conclusion of the senior First Aid course which is part of the physical education program the Vernon Township and Glenwood-Pochuck Ambulance Squad members volunteer their time to bring their equipment to the high school to demonstrate techniques that are used in performing their life-saving job. Senior Jim Holowienka is a member of this volunteer group and plans to work as a paramedic after high school graduation. He attended classes at Sussex County Vocational Technical School two evenings a week and all day Saturday to study for his EMT certification; he can now proudly claim to be an emergency medical technician.

Curriculum projects oriented to improving skills and understanding

One of the most challenging projects attempted by students in the Machine Woods class is the construction of a grandfather clock. James Kensek and Craig Wallace decided to undertake this task and chose to work in cherry and walnut woods. According to instructor Rolf Warneke, a conservative estimate of the cost to the student is eleven hundred dollars; the clock works alone can run to more than seven hundred dollars. Jim and Craig are pictured storing an unfinished grandfather clock from last year. Months of effort should

produce a valuable piece of household furniture.

Young people from an orphanage in New York state were guests of DECA and received gifts from Santa Claus (Brian Hayes) who arrived by way of a fire engine. A home economics food class hosted a luncheon for the guests and served turkey with all the trimmings. In the picture below, Laurie Tobia learned a few new break dancing steps from the young visitor.

Beyond the classroom

Learning is not limited to the classroom and a perfect example of the classroom without walls is the field trip. Destinations are varied with New York and its numerous attractions high on the list. Foods classes traveled to the Culinary Institute, English students saw Arthur Miller's *Death of a Salesman* at Montclair State, and electronics classes visited the Indian Point nuclear power plant. The most unique trip and a first for Vernon students was the journey on the Clearwater Sloop.

On November 5 a group of Marine Biology students sailed down the Hudson River on the Sloop Clearwater. When we first arrived we thought the boat looked small and we couldn't believe it would hold all of us. When we boarded and the sails were raised we were surprised by how much room there was. The Clearwater is a very good replica of the Dutch sloops used in the nineteenth century and was built in 1969 by a group of people who became concerned about the condition of the river. The sloop travels up and down the Hudson with tour groups in an attempt to get people to join in caring about the condition of the river. The crew members were very open and shared their experiences with us. We had the opportunity to steer the boat, navigate, collect and examine water samples, raise the sails, and use a net to catch fish. The day ended with moments of silence and a sing-a-long.

Competitors successful

Upper level math students have been involved in the New Jersey Math League. Six tests were given over a period of six months beginning in October and ending in April. The total score to date for the top five Vernon students is 99 which is well above the state average. Of the top five students Michael Wassmer, Charles Furce, and Richard Boston are pictured below; Doug Baker and Glen DiBiasi were not present for the photo.

Foreign language competitions are another regular event. Spanish students participated in Spanish Language Day at Drew University. Level I students competed in a spelling bee and level IV students in original oratory.

The Northern Regional Marketing and Distributive Education Conference which was held at Rockaway Mall on January 29 produced many ribbons and trophies for Vernon. First over-all winners were Sean Talt and Rick Simpson; third places were earned by Kristie Becker and Rose Perez. Cheryl Predmore, pictured below right) was one of seventeen top forty awards claimed by Vernon.

A matter of fitness

The ability of your body to do your daily required work and still have some energy left over for recreation is the definition of fitness. The two steps in achieving a perfectly fit body are improving the lungs and heart through running in the spring and fall and by strengthening muscles during winter circuit training.

The boys in Mr. Jefferson Holbert's gym class strive toward this objective. The Master of Fitness Award is given to those who successfully achieve this objective. Hopefully, the long range goal of a life time of fitness will become part of each individual's life style.

Mr. Holbert does not believe that you need to join an expensive club for hundreds of dollars in order to be fit. All it takes is twelve to fifteen minutes a day to run or just work out in your own basement.

James Quinlan--
Attended Kean State
College; Teaches Electri-

Expanded facilities welcome

Everyone had a chance to lend a helping hand. Boys from gym class were drafted to help move the new furniture into the addition. Mr. James Schmick gave the orders and Mark Puterbaugh (right) carried them out. The target date for moving into the new wing was early March with the dedication ceremony set for later that month. Refreshments were served in the cafeteria to mark the event. Interestingly enough, even with twelve new classrooms, the school still seems to be full.

Linguists and artists honored

Eight fourth and fifth year German students earned the right to become charter members of the National German Honor Society. In order to be eligible they were required to maintain a 3.0 cumulative average and exhibit great proficiency in the German language. The first induction ceremony was conducted by sponsor Mrs. Rita Bell and concluded with the traditional Black Forest Cake.

The National Art Honor Society inducted its fourth class of members with the ceremony conducted by second-year member Laura Colon and sponsor Mrs. Judith Hornstra. Art students contribution to life at Vernon High was noted.

Choices loom on horizon

Remember being asked, "What do you want to be when you grow up?" Well, you're grown-up! High school is almost over and you have to make a choice. For some, it's more schooling--technical schools, trade schools, nursing schools, business schools, college, universities. For some it's right to work--to be carpenters, plumbers, electricians, mechanics, secretaries. Still others opt for a combination of on the job training and education while serving their country in one of the armed forces.

Deck the halls

The 1985 holiday season arrived and the smell of pine was in the air, thanks to VTHS custodial staff who bought and set up ever-green trees around the school. They also, for the first time, hung strings of lights on the trees in front of the building. The custodians, however, were not the only ones helping us

celebrate the holidays. The cafeteria workers prepared a special buffet for December 18. On that day, Mr. Rudolph Parrella proved that he was not a scrooge; he paid for everyone's lunch with the profits from the soda machine and rounded up his colleagues to dip ice cream.

Juniors at Vernon Township High School number two hundred eighty-six, sophomores three hundred seventeen and freshmen three hundred seventy-seven. These groups comprise the underclassmen section of the student body and total nine hundred thirty of the one thousand one hundred fifty school population. The underclassmen are responsible for more than the need for additional building space; they contribute greatly to the unique personality of the school.

Hogan works on clay head

An extraordinary concept for a clay sculpture of a head was the result of collaboration between Brendan Hogan and Mr. Brian Paul, Art Major instructor. This talented junior got his original idea from the album cover of Motorhead's "No Remorse." Brendan said he doesn't listen to the heavy metal group but the head on the cover caught his attention.

Brendan started his project in November, 1985. When this picture was taken in early January, 1986, he was in the middle stages of creation. After working each day of Christmas vacation, Brendan still had to attach the horns which are in his hands, as well as a chain and spikes. Eventually the head will be fired in a kiln at approximately two thousand degrees fahrenheit and then painted silver.

Brendan said he most enjoyed working on the eyes and the helmet. He felt the hardest part is going to be attaching the horns. The target date for finishing the project was late February.

Zduniak's photos express art of seeing

Certain qualities make a good photographer, such as the ability to see the ordinary as something uncommon and special. Jeff Zduniak falls into this category of good photographer. He had three of his color photographs chosen for the "Wall of Fame." Jeff's work dominates the exhibit that is the end result of a grant given to the art department by the Sussex County Arts Council. The exhibit will travel to locations throughout the area by request; it's first stop was the front lobby of Vernon Township High School. Jeff's work along with the work of other students and alumni will help to educate the public as to the artistic aspects of photography. The original photographs were made in Jeff's sophomore year and the subjects were all local. Jeff said, "I know a potential picture when I see one."

Winning banner by Dickson featured space shuttle

Chris Dickson airbrushed the junior class to victory in the spirit week banner competition. Chris started airbrushing in June, 1985, and has since broadened his skills through summer employment at the Action Park airbrush shop.

Junior class officers Gretchen Weigeshoff and Rose Scarola first proposed the idea of making the banner to Chris. He accepted and expanded on their initial idea of a rocket and logo into the unique concept of a space shuttle. From there he proceeded to make the final banner in about six hours, two of which were required for the rough draft.

Today Chris is using his special talent by airbrushing t-shirts and other clothing items for a profit. His artistic skills also work for his benefit in his commercial art class.

Super-achievers recognized

Great ability, unusual interest, rigorous self-discipline, and lots of motivation just might produce super-achievers. When nomination time comes for the Governor's School, teachers look for just such people. The five juniors selected to represent Vernon fill out applications, gather recommendations, and submit examples of their work. The arts nominees send their materials to the county which forwards

them to Trenton; if they pass the initial screening, they are called to Trenton for an interview complete with portfolio or audition. The science nominees are reviewed at Drew University and the social sciences at Monmouth. If they are among the select finalists, they will have earned the honor of studying college level curricula at one of the university facilities in the Garden State this summer.

Kerri Peters is one of the multi-talented nominees for the Governor's School; she is applying for the creative writing award but is just as talented in the visual arts which she plans to study.

Below: Glen DeBiosa, science nominee, hopes to study at Drew. Bottom: Andrea DeGraaf, social science candidate, would study current issues.

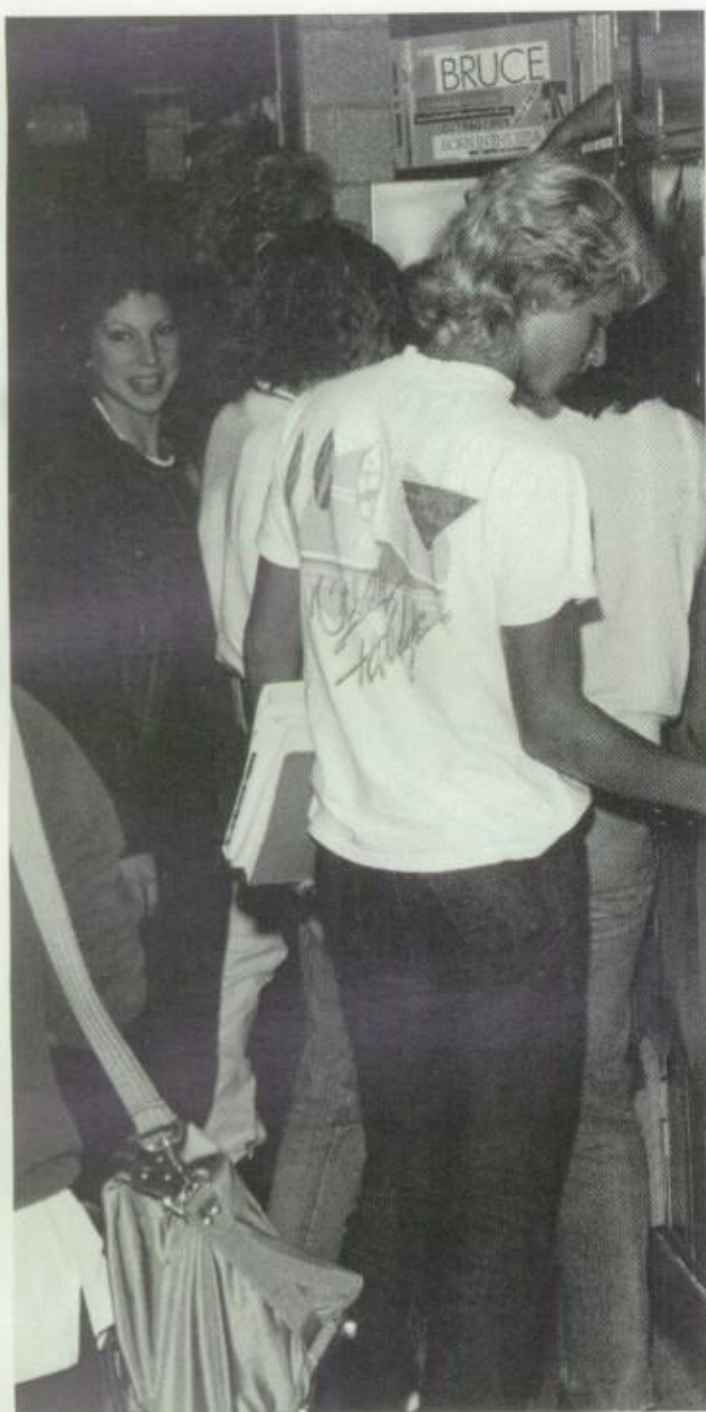

Junior are winners

The Class of 1987 were the proud winners of Spirit Week '85 and as their president says, "We're going to try to keep it that way."

The first junior fund-raiser of the year was the Great Viking Balloon Race held in October. The contest was to find out whose balloon would go the farthest and the winner was Mrs. Ilene Franklin. Her balloon traveled to Massachusettes and she won \$100. Look for a repeat of this project next year.

The major event of the year for juniors is their prom. The theme was "City Lights" and decorations included subway scenes and city terraces. Kathleen Pasetty was the chairperson and the scheduled date was April 5.

Much of the responsibility for these events falls to the class officers and Mrs. Pat Clancy class advisor (pictured to the right), although many other juniors contribute their time and effort. Each officer has two years or more in their position. Janet Den Bleyker is treasurer and she has the most years under her belt with three. The other officers each have two years of experience and are president Gretchen Weigeshoff, vice president Rose Scarola (not pictured), and secretary Janice Woods.

Above: Bill Wright, Stacey Ritzer, and Rose Scorola stop at their lockers between classes and chat with their friends. Right: Kerri Peters, Marlene Linder, and Michele Chiaramonte are three of the talented artists that helped in the painting effort that made the juniors winners during Spirit Week '85.

Bottom left: Joe Duffy and Ray Pepe, both students in Art Major, are expected to develop their talents and enhance their creativity through required and independent projects. Bottom right: Anthony Graham, Sandy Haubruck, Eric Schmid, and Lisa Murray are in English 11, a state requirement for graduation.

Involved students like school

Most schools, including Vernon, seem to attach labels to groups or cliques of students. The sophomore class was selected for an informal survey of the likes and dislikes of such a group. Students that were involved in sports and activities as both spectators and participants were asked to identify their likes and dislikes. The survey revealed that they enjoyed talking on the phone, liked to read in their spare time, and played musical instruments. When asked the types of music listened to, the

response indicated great variety, ranging from Springsteen, Bryan Adams and the Hooters to Lynyrd Skynyrd, the Stones, and Van Halen. A majority of this group likes school and is enrolled in college prep courses along with art classes. Future plans included college and the armed services. Typical sophomore examples of this active group are pictured below: Chris Korin, Chris Boyle, Lauren Adams, Danielle Alaura, Tara Carew, Rich Falcone, and Mike Embleton.

Goal to enjoy life

Another and different clique within the sophomore class is made up of individuals that keep themselves busy attending parties and being with their friends. Motorcycle riding, playing hackey sac and frisbee, and skiing are on their list of activities according to the survey. Their taste in music ranged from heavy metal (Dio, Iron Maiden, Kiss, Sabbath, and Zeppelin) to mellow southern rock such as the Dead. School is not a first priority with this group

but they do enjoy its social side. Auto shop and metal shop are favorites with this group as well as basic foods, art, and business classes. Although future plans were not specific, everyone surveyed indicated a common goal to enjoy life. The Wrap-up

All-occasion and holiday gift wrap packages were sold by members of the class of 1988 as a fund-raising project. Prizes were awarded to those students that enthusiastically proclaimed themselves top-notch salespeople. Joe Sunfield walked away with the first prize of ten dollars for selling seventy-eight dollars worth of gift wrap. The runners-up, each receiving five dollars in prize money, were Kathy Schotter and Karen Batchelor; both girls sold fifty-seven dollars worth of wrapping paper. The sale ran from November 1 to December 20. Working on the project are sophomores pictured to the right: Barbara Wolek, Lisa Garrett, Jennie Leslie, Dave Jones, Kathy Schotter, and Danny Forrester.

Alonso's goal is center stage

Now appearing...actress, singer and dancer, Jelena Alonso! These are the headlines which Jelena looks forward to seeing in the future. Currently, acting is the main concern in her life. She is determined to keep it that way. Jelena claims that she loves being in the spotlight.

Jelena first got interested in the stage after viewing the Broadway musical *Annie*. She enjoyed the show and said to herself, "Someday I could be doing that!"

Jelena has been dancing seriously for five years. She has been enrolled in summer acting classes. Through a few tryouts she is now a member of a theater group in Sussex County called the *Pegasus Players*. Her singing has given her a spot in the North Jersey Regional Choir.

Sophomores show mega-spirit

Fruitful years are ahead for the class of 1988 if the 1985-86 school year is any indication. During spirit week the class earned a first place for overall spirit and a first place for the yelling contest at the fall pep rally. During the chain race which raised funds for charity, the sophomores finished in second.

On the calendar of events were a car wash, a dance, the wrapping paper sale, and a carnival. Busy is the word for it and active describes the class. Under the leadership of advisor Ms. Bailly and the class officers, a firm foundation has been built for the next two years.

Left: Class Officers. Front row--Advisor Ms. Jean Bailly, Treasurer Dave Jones, Vice President Mike Embleton. Back row--President Lisa Garrett, Secretary Barbara Wolek.

Advisees would like to be advisors

"Cathy has helped us a lot with school and personal problems. She's always there when we need to talk," agree freshmen Tammy Probst and Cyndi Petrovich. Tammy and Cyndi are part of Cathy Marone's senior advisory group. "We felt more comfortable coming into the high school knowing that we would have someone to answer our questions and rely on." That is the feeling of the majority of the freshmen.

All of the freshmen know that there is someone older, but not too much older, there to help with school, teachers, and personal problems. When asked if the girls would like to be senior advisors when they are seniors, the answer was an enthusiastic, "Yes, that would be great!"

Student's story published in winter of 1986

A talent for writing lies within the brain of freshman Sara Harrington. As an eighth grader, Sara was assigned to write a story for her English class. Sara's story, entitled "The Sad Clown," was about a clown who taught children to get in touch with feelings of happiness and laughter. The short story was published by *The Shoe Tree* magazine in the 1986 winter issue. This was Sara's first published work but she hopes to repeat the experience. Her writing also includes poetry.

“We’ve
only
just begun;
the fun is
yet to
come.”

The fall of 1985 introduced the Freshmen Class to the Viking Spirit Week. As part of the festivities class banners were made incorporating the class mottoes with creativity and originality. Samantha Dzikowicz and Barbara Kerstner(right) as well as many other freshmen put in long hours to complete the class of 1989 banner. It was designed to depict the various activities that are a part of each student’s life and make that student different from others and therefore unique. The banner was displayed at the fall sports pep rally, at homecoming, and in a school showcase.

Frosh adopt older folks

At the first freshmen officer meeting, the students were convinced they wanted to do something philanthropic. Laura Semian came up with the adopt a grandparent idea. Laura and Mrs. Kaicher, class advisor, went to visit several homes. The relatively small Newton Nursing Home was finally selected. Freshmen visit twice a month with seventy-five volunteers participating in the successful program.

Before the initial visit to the home, freshmen met with Mary Lou Schurr who is a consultant in gerontology. Ms. Schurr gave the freshmen useful information on the do's and don't's of working with the elderly. On the first trip everyone played bingo. Eventually students and the elderly will be paired off so that special relationships will have a chance to result from the adopt a grandparent plan. At the very least, a break in the everyday routine is provided for some senior citizens.

Largest class to date

The largest class to ever enter the doors of Vernon High arrived on September 4 to be greeted by their advisors who have continued to encourage them as individuals to make the most of their four years. They numbered three hundred and thirty five and have worked on their projects with enthusiasm. Included were a magazine fund-raiser, making banners and posters for spirit week, holding a dance in March and a luau in the spring. The adopt-a-grandparent program was an example of freshmen at their caring best.

Below: Class Officers. Front row--Secretary Jennifer Holodinski, Vice-president JoAnne Arrotti, President Bernadette Reynolds. Back row--Advisor Chuck McKay, Treasurer Chris Glenn, Advisor, Mrs. Maryanne Kaicher. Bottom: Freshmen stopped at Burger King on their way home from a visit to the Newton Nursing Home. Present on March 12 were Alicia Mabee, Mrs. Kaicher, Sue Kollbacker, Christine Leve, Marilyn Cabrera, Evelyn Edwards, Gina Fillipou, Ron Rodriguez, Lynn Bates, Laura Semian, Andy Vanderplaats, Bernadette Reynolds, Renee Rapone. Right: Lynelle Martin.

Our Frosh like to win

The best record ever in Viking history was registered by this year's Freshmen Football Team. Their record was 7-1-1 with the only loss at the hands of Kittatinny and the tie with High Point. The win over Pope John marked the first time a Vernon football team has beaten the Lions.

If there was not a separate squad for freshmen in a particular sport,

the frosh moved right into the junior varsity and sometimes into the varsity level of competition. Swimmer Adam Lettieri, pictured below, is a perfect example of what freshman athletic ability and effort can do. Adam competed on the varsity and qualified for the Sussex County Vo-Tech Invitational Meet.

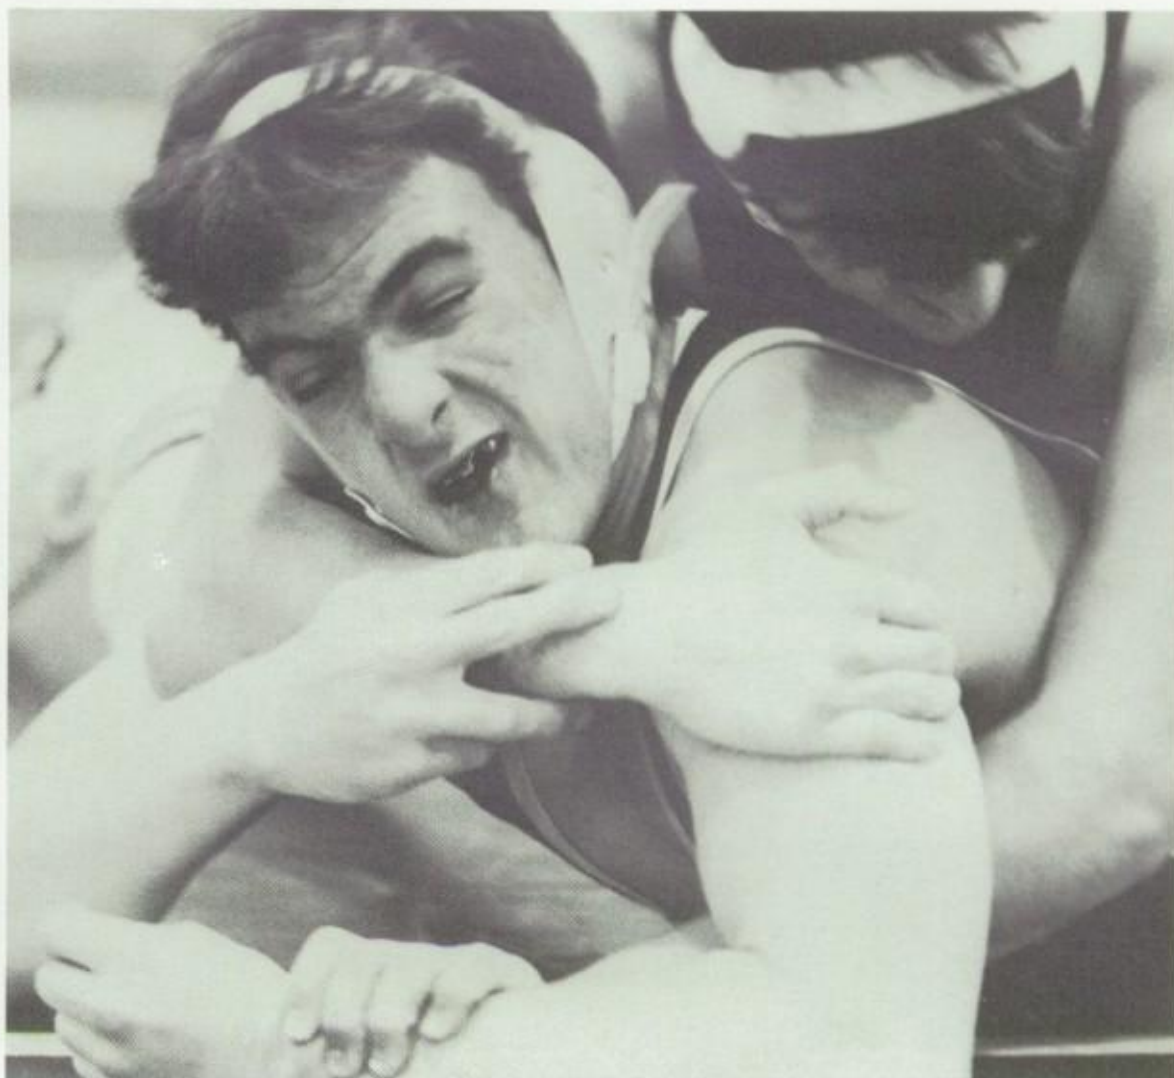

These freshmen are used to winning!

Going to McDonald's is almost as much a part of school as going to class. You've made us the place to meet, to talk, to have a good time, to celebrate your victories and help forget defeats.

You've made McDonald's more than just another place to eat. And that's why, at McDonald's we say . . .

McDonald's of Franklin wishes Senior Class all the good for the future.

Raymond Milligan

December 16, 1968--April 15, 1986

Ray was his own person. He knew what he wanted to do with his life and he had planned how to do it. He was denied the chance to reach his goals in a tragic automobile accident.

We will miss him...his ability...his sense of humor...his free spirit.

Como Estás
Good Luck next
year and try to
enjoy whatever you do.

Moonliter (Joe H.)

ate-
what can I say to capture our friendship?
thanks for being there during the good times
and the bad. I don't think I would have
survived without our talk sessions and
notes. Just think of all the trees we killed.
I'm going to miss you so much when I
leave! I'll always think of you as my
daughter because we're that close. Take
care of yourself! Don't run too many
laps in gym! Watch yourself, too! I'm not
ready for a grandchild! Best of luck in
your Senior year! It can't be any worse than
mine was! You better write me when I'm up
in Syracuse! I'll save a guy for you!

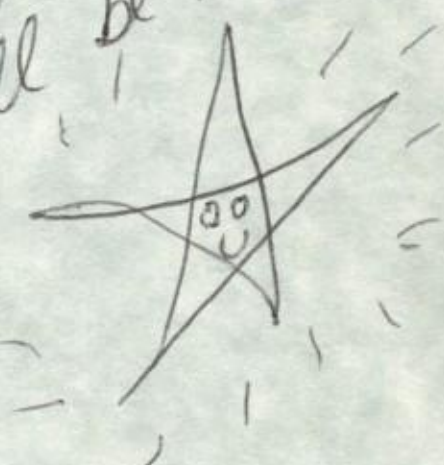

Love-
Dawn
(your mother)

Kate-
 what happened?
 I didn't hardly
 see you at all
 this year! I hope
 we have some classes
 together our SENIOR year and
 Good luck next year!
 in the year (hopefully!)
 next touch! Love ya!
 in touch! Keep
 Xacey

Kate-
 I'm really
 sorry that we
 haven't talked much
 this year. We'll definitely
 talk more over the summer
 when we're not working. Good luck
 next year and in the future. Keep
 in touch! LOTS-O-LUCK always!
 Love ya!
 Dana

Dearest Kate,
 I'm really glad I got to know
 you this year. You are a really
 talented actress and singer. Always
 stick with the stage! I'm gonna
 miss you a lot next year. When
 I come back from college to see
 the performances... I want to see
 you there! I love you! Never forget
 Back County Cumes or Theatre we'll
 sing "The Rose" together! Keep in
 touch with me and always stay
 so sweet. (764-3443) BEST of
 luck in the future... I can't
 say good bye, so I'll just say
 good luck! Love ya' always,
 Linda
 Walter

... and in
 time we will
 all be stars

P.S. If you're
 ever in West Virginia
 come visit me at
 W.V.A.C
 (West Vir. Wesleyan College)

Sorry so
 sloppy
 but
 I'd
 ya' know!
